

Testimonials

Myself and my son completed a CSIDT course with Mack, it was well presented and well written. We are looking forward to working with him in the future and the publication of the CSIDT training materials. I would recommend him highly for any CSI or diving related work, especially if you combine the two.

Mark Milburn, Owner, Atlantic Scuba

Just finished a course with Mack, can not wait to have him back, his knowledge was the best I've come across in this field, Highly recommended, ready to do more training with him!

Shane McClung, CPO at G4S

Mack,

On behalf of the Pfeiffer University Epsilon Chapter of Alpha Phi Sigma I just wanted to take the time to give you a belated thanks for the intriguing and informative speech you presented to the Pfeiffer University Criminal Justice Honor Society students being inducted. Your information truly held the audience captivated, to say the least. Everyone was amazed by your expertise and enchanted with your stories. You are welcome to come to our venue anytime to share your multi-faceted talents.

Sheila Griffin Mull, Pfeiffer University, North Carolina

I can promise you all that you will love this training with Mack. I have known Mac for over 30 years and I know he has great expertise in this field. I have taken his class and in my 17 years in the field as a Crime Scene Investigator for the High Point and the Charlotte Mecklenburg Police Dept. It was one of the best classes I was allowed to attend. I learned so much as to where to search for bodies under water and how to preserve the evidence that is needed once the body is recovered. There was so much that I did not know that needs to be done. Thank you Mack for continuing to share your knowledge to help others in their futures as Investigators.

Patty Amos, Crime Scene Investigator at Charlotte-Mecklenburg Police Department
