

Cataract / Eye Procedures:

Clothing: wear a button down shirt so we can open it to put the EKG patches on otherwise we will need you to change into a hospital gown.

Take your eye drops as directed until you get to BSA.

You may have clear liquids up to 3 hours before your procedure and solid food up to 6 hour before the procedure unless instructed otherwise from the pre op phone nurse.

The pre op phone nurse will discuss which medications to take or hold at the time of your call
