To Whom it May Concern:

GTR Turf was the successful tenderer for the "Installation of Artificial Turf" contract for the Second Artificial Turf Field at Merle Logan Park in Nanaimo, BC. In addition to the contract, The City of Nanaimo requested GTR Turf make repairs to the existing artificial turf field.

GTR's quality of work and communication throughout the project was exceptional. All work was completed in a timely and safe manner and our City staff enjoyed the maintenance training they provided.

It was a pleasure working with a responsible crew who understands the value of working towards a common goal.

Please feel free to contact me should you require further information.

Yours truly,

---
