

CAM LOCK FITTINGS

- Stainless steel rings, arms & pins.
- Most complete line of polypropylene couplings available.
- Versatile — interchangeable with all types of cam lever couplers.
- Precision molded insures a uniform and accurate fit.
- Durable- Polypropylene is glass reinforced for rugged strength and durability.
- Smooth operating finger rings are designed for easy opening of cam levers.
- Complete series of ½", ¾", 1", 1¼", 1½", 2", 3" and 4" NPT thread. • BSP threads available 1"- 3" sizes (excluding 1¼").
- Economical and superior in performance.
- Standard with EPDM gaskets. Buna "N", and FKM (viton) also available.

FERTILIZER TRANSFER HOSE

YELLOW REG.

Light weight, flexible, rugged suction/discharge hose which has good chemical resistance and is excellent for transferring fertilizer solutions, septic solutions, pesticides, and is Lasso® resistant. Its corrugated polyethylene helix serves as a scuff strip, making it durable and easy to handle.

ENFORCER HD

Hose is Stronger and more dimensionally stable than Fertilizer Solution hose due to its polyester braided reinforcement. The EPDM tube has good chemical resistance, and is excellent for transferring fertilizer solutions, septic solutions and pesticide. Its corrugated polyethylene helix serves as a scuff strip, making it durable and easy to handle.

We offer this hose by the foot, 50' and 100' lengths. Call us for the bulk discounted price for 50' or more!

Standard clamps have 9/16" band and housing are made of 300 series stainless steel. A 5/16" hex head screw is 300 series stainless steel. The 9/16" band width offers greater sealing area. One-piece, spot weld free housing.
