

# Essay Direction and Presentation

---

Each student will prepare independently a critically appraised topic of NOT MORE than 2000 words (not including references and abstract) and based on an interesting literature research question relevant to the student's own experience or interests. The essay will address an original question, and describe

1. Question (Following the PICO structure)
2. Background
3. Search strategy
4. Results
5. Conclusion
6. Comments
7. Recommendation
8. References

Each student will prepare a presentation of their essay that is NOT MORE than eight minutes in length and requires NOT MORE than eight powerpoint slides, one for each section above. The presentation will be made to the entire class.

The presentation will be given in a panel format. After all essays have been presented, the panel will lead a discussion of the value of the available research for CAT questions. Points in the discussion will be guided by the assigned readings for the panel, and illustrated by the panel's own CATs.

Please note that there are readings associated with the essay discussions that are required preparation for the essay presentations by all participants of the seminar, not just the panelists.

Due dates are found in the course schedule given in the syllabus.
