

WASHINGTON MASONIC NATION

THE SECRET LEY LINES OF THE LUCIFERIAN BROTHERHOOD OF DARKNESS

HOUSE OF THE TEMPLE
Synagogue of Satan

Yards from White House center point between the 2 fountains in the north and south of building. The extrapolation of the years from the years is derived from the same principle of the Latitude to Year theory. Such the case being, the Masonic temples venerating their fallen Cherub Lucifer have encoded the year 5776, into the ley lines, sacred Gematria, and city grid layout. The House of the Temple is such an example of this pinnacle Year of Light that based on the overwhelming evidence from other similar pyramid and Masonic architecture, the year 5776 in Jewish reckoning is tied to the manifestation of the 3rd Temple in Jerusalem as all the Masonic Temples are orientated and encrypted with its phi ratio, dimensions and occult inferences.

In one interpretation of the layout of the House of the Temple, the composition resembles that of the Kaaba of Mecca that the Muslims venerate to their god Allah. Some suggest that Islam and Freemasonry have their same origin in the Luciferian secret doctrines of the Mystery Schools of Religion. In the Bible these are referred to as the Doctrines of Demons.

The adjacent building to the House of the Temple is configured as a 'G'. This is seen in the prominent emblems of the Masons. It is often thought to infer to the following: God, Gnosis, G-spot, etc. In this grid layout the 'G' is upside down in keeping with the law of opposites.

White House Φ

The illustration of the top view of the White House shows that the layout is constructed in a phi ratio pattern and proportion. The White House is flanked by 2 wings, the East and West Wings. There are 2 main foundations in the north-south orientation. The center point of the phi ratio square is from where the heading and measurement is taken to the House of the Temple to be 2016 yards. The supposition of this illustration is that the Masonic Temple is a temple set to a 'clock' countdown to the Year of Light, 5776 or 2015-16 precisely. This date is the anticipated year in which the Masonic 'Great Work' will be accomplished on Earth. This is the recurring theme of such buildings around the world that are based on the Great Pyramid pattern of time and proportion.
