**Position:** Greenhouse Gas Verifier  
**Req Number:** B246  
**Workplace:** Calgary (Hybrid)  
**Sector of Activity:** Energy and Environment  
**Job Type:** Full Time, Part Time, Independent Consultant

### Company Summary

MICONE Consulting Inc. (MICONE) is an Regulatory, Environmental, Energy and Sustainability consulting firm. We are a multi-disciplinary firm of experienced and professional consulting engineers and scientists. We specialize in GHG Verifications, Benchmark and Compliance Reporting, ESG Reporting, Regulatory Reporting, Offset Project development, Energy Audit, Sustainability and Environmental Training. By joining MICONE, you're seizing the chance to grow with a leader in the Energy Transition space offering challenges that never cease to inspire.

MICONE is an accredited GHG Validation and Verification Body. We are Accredited by the Standards Council of Canada (SCC) to the ISO Standards. We are also licensed under the Association of Professional Engineers and Geoscientists of Alberta (APEGA). MICONE is a national leader in providing unique consulting services and expertise in the fields of environmental science and engineering, to government and industrial organizations. Our team takes pride in providing the **highest quality services**. Since inception, we have combined a passion for our work with deep industry expertise to tackle our clients' most important challenges.

Our commitment to excellence extends to our workplace where we offer a flexible work environment, competitive compensation and benefits, a strong emphasis on health and safety, support for continuing education and professional development, and the opportunity to work with and learn from senior technical experts and professionals.

We have a fast-paced and dynamic work environment, and our team is committed to providing solution driven environmental services to help our clients in planning, managing and conducting their projects. Our growing organization needs motivated people to help us continue to grow, while maintaining the highest quality results our clients have come to expect.

We are located in downtown Calgary, Alberta but serve all the provinces and Territories in Canada. MICONE is also registered in the state of Texas and provides services in the United States.

MICONE is looking for motivated professional to take up the role of **Greenhouse Gas Verifier**

### Core Responsibilities

- Conduct GHG Inventory, Quantification and Verification, site visits and prepare verification reports for programs including TIER, OBPS, BCGHG, BC-CIIP, GHGRP, SK-OBPS, EPS, CFR
- Prepare regulatory reports including ESG, NPRI, GHG, MSARP, AEIR
- Prepare GHG assurance for ESG and sustainability reporting
- Conduct industrial, commercial, and residential energy audits and assessments
- Work on developing offset projects for industrial facilities

- 
- Work closely with clients to maintain and grow relationships ensuring effective communication and essential project management
  - Prepare technical correspondence, proposals, cost estimates, reports, work plans, and project specifications
  - Identify innovative marketing opportunities

**Experience:**

- Bachelor's degree in engineering, science, or a related field
- Must have 4+ years of experience with performing GHG verifications per ISO 14064 and preferably with an accredited body to ISO 14065
- Strong knowledge of greenhouse gas accounting protocols and methodologies (e.g., ISO 14064, WRI/WBCSD GHG Protocol, GHGRP)
- Proficient in data analysis and reporting using software tools such as Microsoft Excel or specialized GHG accounting software
- Excellent attention to detail and ability to work independently
- Strong communication skills, both written and verbal
- Must have a valid driver's license in good standing and ability to travel occasionally
- Completed ISO 14064-3 Training
- Alberta TIER-specific training and CFR training is a plus
- CPA is a plus
- Immediate availability is a plus
