# The British Virgin Islands - the popular cruising ground that's always full of surprises

---

Simply put, the British Virgin Islands are one of the most popular charter destinations in the world. The ingredients of dozens of islands, clam waters, great snorkelling and superb diving are seasoned with a mix of fun shoreside diversions including nightlife, shops and high-end resorts making an irresistible recipe for fun. Even if you've been to the BVI, each time you return you'll add new memories. The islands are close together, allowing for relax cruising. You can snorkel, beach comb and enjoy different spots several times in a day. Explore The Baths - a stunning location where boulders seemingly tossed by playful giants create sunlight caverns and pools - or relax on pristine beaches, which are so plentiful in the BVI that it's easy to find a sandy spot all to yourself. For a glimpse at the world below the waterline, you can snorkel or dive over the *Rhone*, a sunken mail ship made famous in the movie *The Deep*, or swim into the caves on Norman Island that inspired Robert Louis Stevenson's classic novel *Treasure Island*. All of these are best reached by your super yacht's tender, of course. Conditions here also make for great sailing, and the BVI host the regattas to prove for it. For some more relaxed pursuits, savour spa treatments at one of the five-star resorts that dot the islands, or sip a legendary seaside cocktail at a beachside bar. The British Virgin Islands have something for everyone, no matter how many times you return.
