Martin Archery Inc. is owned and operated by Mr. and Mrs. Gail Martin and sons, Terry and Dan.

Established over 21 years ago, we now manufacture a complete line of archery equipment.

Our business has grown every year and in turn we have expanded our plant to accommodate all phases of manufacturing.

We take pride in giving fast, efficient service; and each order is given individual attention. Our main object is to satisfy the customer. We try to maintain and produce a complete stock of the finest archery equipment available.

Gail

Eva

Terry - Sales Manager    Dan - Purchasing

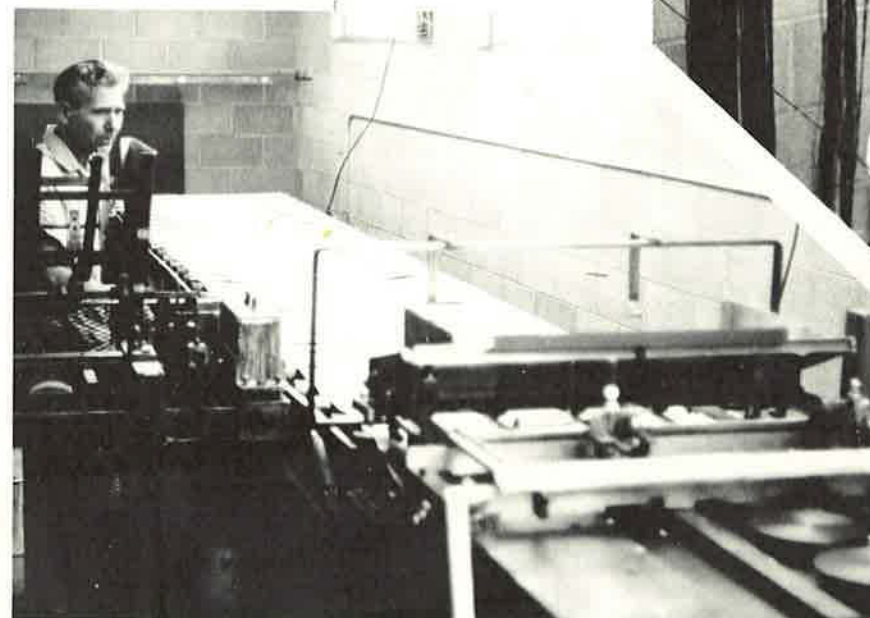

All leather goods are precision cut from top quality material and inspected before being assembled.

The materials are then sewn with the greatest care and perfection. By taking time and patience with our products, we can offer attractive, long lasting leather goods that are guaranteed from having flaws in material and craftsmanship.

Marie Bardwell - Bowstring Production Supervisor. String production runs to several thousand per day. Modern materials, dacron, nylon and monofilament are used exclusively to make our custom bowstrings.

Melvin Bender - Arrow Production Supervisor - operating part of the automatic machines used to manufacture our arrows. Only precision matched wood, glass and aluminum shaft stock is used.
