## COVER CROPS

**A Little Background:** Cover crops are plants growing in a garden to improve a soil's physical structure and fertility. As a cover crop grows, they become reservoirs for important plant nutrients such as nitrogen, phosphorus, and potassium, as well as micronutrients. Cover crops also help to prevent soil erosion, reduce weed problems, and provide a habitat for beneficial insects. Working cover crops into a garden makes these nutrients available to future vegetable crops.

## WHAT'S THE LATEST at SIEGELS and .... PLANNING AHEAD

**SOFTENER SALT PROGRAM - BUY 10 GET 1 FREE** Buy 10 bags of softener salt, get the 11<sup>th</sup> bag free. No need to purchase all 10 at once. We will keep track of your purchases on your frequent buyer's card. A great savings!

**NEW HAY AND STRAW** We have our new crop of hay and straw at the store including Grass Hay and Wheat Straw in good supply.

**4H and FFA Rebate Program** The fairs will be winding up this month. If you are in our 4H/FFA rebate program, stop by the store after Sept. 30 to pick up your rebate check. Congratulations to all the kids who took a project to their county or state fair. Everyone is a winner by making the commitment and having the dedication to enter a livestock project. 4H and FFA is a learning experience in which all the family can participate. We support these programs by giving a 10% rebate on feed and bedding purchased here at Siegels.

**TROPHY ROCK and SALT for DEER** Start your mineral dig for deer this summer. We have white salt blocks, Trace Mineral Blocks, and Trophy Rock. Check out our selection of deer feeds and attractants.
