Friends volunteers provide hands-on daily oversight of the facility, including staffing to handle the many visitors year round. Please consider becoming a member of Friends. Friends' is a 100% volunteer organization. In all cases, donations are deductible to the extent allowed by law.

## PRESIDENT'S MESSAGE...

Halloween in the Gardens – specifically, our BOOtanical Halloween trick-or-treat opportunity for children 12 and younger, in a safe, enjoyable environment. Our volunteers will be decorating the Gardens early this month; plan to stop by often to enjoy the spooky atmosphere! BOOtanical Halloween began when a few members realized that they missed the opportunity to see young children, proudly showing off their fantasy costumes. Trick-or-treating isn't what it was when we were young! But the joy children still find in the holiday is infectious!

Weather is slowly improving with Fall moving in and summer receding. Visit the Gardens soon!

## UNIVERSITY of FLORIDA

### University of Florida IFAS Extension Central Florida Gardening Calendar - October

## What to Plant

**Annuals/Bedding plants:** Even though temperatures are still warm, begin planting for the cooler months ahead. Impatiens, alyssum, and dianthus are good plants for the fall / winter garden.

**See Annuals:** [http://edis.ifas.ufl.edu/topic\\_annual\\_landscape\\_plants](http://edis.ifas.ufl.edu/topic_annual_landscape_plants)

**Bulbs:** Plant agapanthus, rain lily, and Clivia lily now for blooms next spring or summer. Add organic matter to the planting bed for best results. **See Bulbs for Florida:** [http://edis.ifas.ufl.edu/topic\\_bulbous\\_flowers](http://edis.ifas.ufl.edu/topic_bulbous_flowers)

**Herbs:** A wide range of herbs can be planted from seed or transplants this month. Some to try include dill, fennel, parsley, and cilantro. **See Herbs:** [http://edis.ifas.ufl.edu/topic\\_herbs](http://edis.ifas.ufl.edu/topic_herbs)

**Vegetables:** Easy crops that can be grown now include beans, broccoli, carrots, collards, lettuce, green onions, peppers, radishes, spinach, and tomatoes. **See Vegetable Gardening in Florida:** [http://edis.ifas.ufl.edu/topic\\_vegetable\\_gardening](http://edis.ifas.ufl.edu/topic_vegetable_gardening)

## What to Do

**Lawns:** Control winter weeds in lawns before they appear. Preemergence herbicides must be applied at the right time to be effective. Apply when nighttime temperatures are 55°F–60°F for 4–5 days. **See Lawn Weeds:** [http://edis.ifas.ufl.edu/topic\\_lawn\\_weeds](http://edis.ifas.ufl.edu/topic_lawn_weeds)

**Ornamental trees and shrubs:** Fertilize plants that are not performing as desired. This is the last month of the year to fertilize shrubs and trees. Controlled-release fertilizer provides nutrients over a longer period of time. **See Palm Nutrition and Fertilization:** [http://edis.ifas.ufl.edu/topic\\_palm\\_nutrition](http://edis.ifas.ufl.edu/topic_palm_nutrition) and **Landscape Fertilization:** [http://edis.ifas.ufl.edu/topic\\_landscape\\_fertilization](http://edis.ifas.ufl.edu/topic_landscape_fertilization)

**Lawn fertilization:** Fertilize lawns if needed. **See Lawn Fertilizer:** [http://edis.ifas.ufl.edu/topic\\_lawn\\_fertilization](http://edis.ifas.ufl.edu/topic_lawn_fertilization)

**Strawberries:** Prepare beds and set strawberry plants this month. Strawberries also make a colorful and tasty container planting. Either way, water daily until plants are established. **See Strawberries:** [http://edis.ifas.ufl.edu/topic\\_strawberries](http://edis.ifas.ufl.edu/topic_strawberries)

**Palms:** Palms have unique nutritional needs. Select a fertilizer that contains controlled release nitrogen, potassium and magnesium. **See Palm Nutrition and Fertilization:** [http://edis.ifas.ufl.edu/topic\\_palm\\_nutrition](http://edis.ifas.ufl.edu/topic_palm_nutrition)

**Oleanders:** Control the oleander caterpillar, which is a year-round resident in South Florida, without harming beneficial insects by pruning off infested leaves or spraying with BT (*Bacillus thuringiensis*). **See Oleander Pest Management:** [http://edis.ifas.ufl.edu/topic\\_oleander\\_ipm](http://edis.ifas.ufl.edu/topic_oleander_ipm)

**Twig girdlers:** Control twig girdlers by cleaning up and destroying fallen branches that young twig girdlers can use for harborage. **See Twig Girdlers:** [http://edis.ifas.ufl.edu/topic\\_twig\\_girdlers](http://edis.ifas.ufl.edu/topic_twig_girdlers)

# *Horticulture How-To Series:* **Creating Garden Treasures**

Port St. Lucie Botanical Gardens Propagation Center

**Saturday • October 6, 2018**

**10:00 - 11:30 am**

***Inside The Gardens Pavilion***

Join the Friends of the Port St. Lucie Botanical Gardens and Presenter, Artist & Master Gardener Dale Galiano, for a fun presentation on Creative Recycling and Creating Garden Treasures: How to bring your trash back to life.

If you're looking for some fresh and fun ideas for reusing your stuff this is a workshop you won't want to miss. Dale will show you how you can turn your old stuff into something new and useful and even more awesome!

**This workshop is held in conjunction with our  
“Junk in the Trunk” Gardens Community Trunk Sale  
and is FREE and open to the public.**

Since 1997, Dale has volunteered over 5300 hours as a St. Lucie County Master Gardener, is a past Master Gardener of the Year. She has participated in all of the community projects and educational programs available – from County Fairs, to Farmer's Market, to Speakers Bureaus, to Homeowner Retrofits and Recognitions. As an artist, Dale enjoys creating interest and surprises in the garden. To her, being able to give personality to a garden by repurposing recycled items and thinking outside the box is the best. Dale also brings fun and enthusiasm to all of her presentations.
