

CAPABILITY STATEMENT

TSP TRI-STATE PLASTICS, INC.

Service is our business!

Tri-State Plastics, Inc. is a full line plastics distributor. Our impressive inventory of raw materials, experience, along with our commitment to service and cost control can make us a valuable partner in solving your plastic needs.

TSP can be of service to you in a wide range of situations, from supplying raw materials to designing and implementing manufacturing solutions. Supplemental services make us the complete facility for all your plastic requirements, including machining, steel rule cutting, notching, slitting, shearing, forming, welding, assembly, silk-screening and sawing. We are constantly searching for emerging materials and technologies to develop Innovative and Cost-Effective ways of dealing with production realities. The benefit to you is increased productivity and less down time.

Core Competencies

- Plastic Materials & Services

- Electrical Insulators
- Films, Extrusions, Die cuts
- Engineering & Mechanical Plastics
- Miscellaneous Materials
- Sheet Materials
- Lighting Materials
- Adhesive Materials
- Clean Room Approved
- N.S.F., U.S.D.A. & F.D.A. Approved

NAICS Codes:

326113 Unlaminated Plastics Film and Sheet (except Packaging) Manufacturing

326130 Laminated Plastics Plate, Sheet (except Packaging), and Shape Manufacturing

332323 Ornamental and Architectural Metal Work Manufacturing

424610 Plastics Materials and Basic Forms and Shapes Merchant Wholesalers

DUNS: 808137103

CAGE: 1GVF7

Differentiators

- TSP is ISO Certified and features CNC machining (both plastic and metal), forming, bonding and fabrication.
- Tristate Plastics provides the materials which allow customers to design signage and display items. Material can be sold by the sheet, cut to size, and routed to specifications.
- We are able to expand our materials inventory to accommodate customer requirements and optimize our value to you and your business.
