

FEEDING BIB

Use a bath towel. Measure 8" down from one end of towel. Cut 10" slit in center of towel. Cut 1-1/2" diagonal slits at each end of 10" slit. Fold back cut edges and hem down. This makes an opening of 3" x 12" to go over head. NO TAPING is necessary.

Sew sides only 6" up to form a crumb catcher pocket. Do NOT tack or sew elsewhere.
