

OUR PHILOSOPHY

Legacy is most commonly associated with wealth and age. Launching Legacies is shifting the paradigm of what a legacy is. Redefining Legacy as something that is lived rather than left behind.

WE Believe: a legacy is

- 1) something valuable
 - 2) that must be managed
 - 3) can be left to others
- a legacy begins when you start to live it
 - everyone has a legacy

Reframing what a legacy is and when it begins allows people to move from surviving to thriving and begin to Live One and Leave One.
