**VTT provides CDC Instructions for a Do-It –Yourself Face Mask on their Website**

***Make Your Own Mask with Your Materials or Ours***

NEWARK, NEW YORK, April 17 – **Face Mask Wearing becomes Mandatory in New York State on 04/17/2020 in places where social distancing is not easily accomplished.** During the COVID-19 emergency, many people are interested in making their own masks for their families and loved ones.

VTT is making the Center for Disease Control (CDC) instructions for making a cloth face mask available on our website in the [“Blog Section”](#) in the post featuring the “Do It Yourself Image”! For those who don’t want to make their own mask, they may be purchased at our shopping website. The instructions are easy to follow and help in the creation of a nice cloth face mask! We are also selling the same antimicrobial Silver Jersey Knit that is used in our face masks on our shopping website. Depending on the material that you decide to use for the actual “mask part” of your mask, this mask can be made very inexpensively! Remember to “Use your Head and Stop the Spread” and Stay Safe!

Located in Newark, New York, V Technical Textiles, Inc. is the leading manufacturer of RF Shielding and EMI enclosures and tents. Our benefit is our flexibility; with our metalized fabric enclosures being lightweight, portable, custom made, and providing unparalleled shielding performance.
