

## THE SIDEWALKER

### *STARS Mission:*

*The purpose of the Special Troopers Adaptive Riding School, Inc. is to provide persons with disabilities with an animal-oriented therapeutic, rehabilitative and recreational program that will contribute to their physical and emotional health.*

### *History:*

STARS remains one of the most unique programs making a real difference in the Siouxland region. With the credibility and experience of our over 30-year history, STARS remains highly-efficient and financially solvent while continuing to initiate remarkable and significant change in our community. Since its inception by Sue and Dr. Mark Wheeler in 1984, STARS has quietly grown from small start-up program to one of Siouxland's most established nonprofit organizations, while also becoming one of the oldest Equine Assisted programs in the nation. Today, demand for our specialized form of animal-assisted services is growing by leaps and bounds.

Volunteers are critical to the success of the program and for the safety of the riders. Without the sufficient number of volunteers, riders will not be able to safely participate in class.

Please notify STARS as soon as possible for any absences by calling **(712.239.5042)** so a replacement may be found.
