ANATOLIA TILE + STONE

VISION

The story of Anatolia Tile + Stone is a deep legacy of innovation and excellence whose foundation was laid in Turkey dating back to 1933 with family patriarch Bekir Elmaagacli, a real estate developer in Ankara.

Since then, Anatolia Tile + Stone has grown to establish itself as a company based on passion, dedication and drive. Anatolia Tile + Stone was incorporated in Canada in 1995, founded by three siblings of the Elmaagacli family, Bekir – Managing Director, Cengiz – Sales & Marketing Director and Berrin – Customer Service Director.

Anatolia Tile + Stone's unmatched lead times, expert logistics services and integrated online portal make our distribution center an extension of your own. Two state-of-the-art facilities totaling a combined 1,100,000 square feet of warehouse space house one of the largest tile inventories in North America, housing more than 250,000 pallets and more than 200 million square feet of tile and mosaic inventory ready for immediate shipment.

Today, our objective, simply put, is to offer impeccable end-to-end service and the most innovative and reliable products in the tile industry, thereby enabling our customers to go above and beyond in delivering on the needs of their clients.

CORPORATE CULTURE

CORE VALUES

Anatolia embraces 5 core values in support of our company's vision and in shaping our corporate culture:

Customer Satisfaction

Through exceptional client focus we are committed to delivering excellent service and high quality products for optimal value to our customers.

Productivity Through Employees

We encourage employees to work smarter by applying advanced learning and technology throughout our organizational processes to achieve superior efficiency.

Positive Employee Relations

We are committed to creating and maintaining open and diverse relationships within a safe, healthy and enjoyable environment in order to foster creativity and collaboration among all team members.

Premier Reputation

Our desire is to always be recognized as an industry leading professional organization built on good ethics, family values, solid governance and exceptional execution.

Growth + Innovation

We are passionate about innovation and continuous improvement, relentlessly pursuing fresh trends in design, diverse global markets, new customers and original technologies to leverage our capabilities and expand on our product offerings.

DESIGN PERSPECTIVE

INNOVATION AND EXECUTION

Innovation comes from the deep-seeded knowledge of what came before and the vision to create what has yet to exist.

At Anatolia, it starts with an idea, an inspiration and the ability to bring our vision to life.

Our goal is to be the industry leader in tile innovation and design, providing the highest quality products and the lowest cost through exceptional design, inventory management, logistical expertise and dedication to our customers.

Every product we bring to market has been designed in-house by our Creative Team. We are highly skilled at adapting to the needs of each individual factory partner to ensure that during the production process they execute the intricacies of every series. This allows us to capitalize on low cost manufacturing utilizing the latest production technology to produce creative designs.

PORCELAIN AND CERAMIC

INSPIRATION | STONE

The world's most desired marbles, travertines and limestones executed in porcelain. The perfect combination of simplicity and luxury can be found within our Stone Look Collections. The timeless aesthetic of the natural variations and textures, ranging from classic to linear formations exude sophistication.

Designed using only premium, hand-picked stones, the beauty of these collections is derived from the technical achievements that showcase true to form veining and movement along-side exquisitely designed tile. The beauty and authenticity of our stunningly realistic patterns are a flawless reflection of the world's richest quarries.

PORCELAIN

INSPIRATION | WOOD

Get lost in nature with our Wood Look Collections, providing an elegant hardwood feel while conserving the Earth's precious natural resources. Our wood collections are inspired by the refined nuances of the forest's natural color pallet, showcasing a multitude of species. Each capturing their unique tonality, texture and with each tile highlighting their depth of character.

The natural form comes to life in the rich, detailed patterns but with the strength and durability to last a lifetime. Perfectly suited to contemporary or rustic designs, these series will add warmth and texture to any space.

PORCELAIN AND CERAMIC

INSPIRATION | CONTEMPORARY

What was never before possible on porcelain is now here. The latest technologies in tile manufacturing have allowed to bring ultra-realism to our range. Metallic looks complete with patinaed oxidation, Cement looks with silica dust that glitters in the light and Textile looks which truly feel like woven fabrics.

Our Contemporary Collections are the result of our designers' creativity combined with our production department's ability to bring them to life.

The future is now!

PORCELAIN AND CERAMIC

INSPIRATION | MONOCHROMATIC

Capture the color spectrum with these looks. Rather than focusing on the superlatives, these collections are pure, technical porcelains designed to perform. They provide designers and architects free reign and work with solid color canvases ready to be the backdrops for their array of projects.

METAL AND GLASS

DECORATIVE COLLECTION

The essence of any space is defined by its wall decoration. From glass to brick to stone to ceramic, the mood and ambiance are immediately set by what is surrounding you at eye level. We have curated a collection of wall tiles that signify the true spirit in each of their own unique styles. From small wat format subway tiles in both classic and modern looks to contemporary large format decorated panels, the spirit of our design is truly showcased in our wall tile.

INTERNATIONAL EXPANSION

BUILDING THE FUTURE

Anatolia Tile + Stone achieved another milestone at the end of 2017 with the completion of our new office and distribution facility in Aliaga, Turkey. Strategically located in Western Turkey, we are situated near the major deep sea port of Izmir, creating a full service logistic center that will serve as a hub for our import and export services all over the world. Designed by award winning Turkish architect team of IGLO Architects, the space has already been nominated for numerous design awards including the 2A Architecture & Art Magazine architecture award for "Future Projects and Innovative Designs".

Overall the project is composed of over 600,000 sqft under one roof, situated on 1 M sqft of land. The logistics side of the facility is full service with 72 loading docks, fully automated lighting, electric forklifts and a global logistics and sourcing staff already in place. The office incorporates all of the necessities of a modern space with an open concept floor plan, meeting and board rooms, all emanating from a vast 3 story atrium. Other spaces include an 8,000 sqft showroom, first floor café and residences on the third floor with a private rooftop garden.

The entire facility concept, space plan, and architectural style all reflect the image and aesthetic of Anatolia Tile + Stone, as a leader in the design and distribution of floor and wall tile products.
