Reasons to Change Existing Stanley MAGIC-DOOR Pneumatic Operator Equipment with Carey MAGIC-DOOR Pneumatic Operator Equipment

- For many years, your company has been accustomed to the Stanley MAGIC-DOOR Pneumatic Operator door equipment providing **outstanding** automatic door operation.
- Carey Automatic Door, LLC purchased Stanley's entire pneumatic door operator equipment line and is the "**only authorized dealer/manufacture of this equipment.**"
- Carey continues to manufacture and assemble the pneumatic door operator equipment to the same high standards using Stanley's original drawings and specifications.
- **Carey has upgraded the cases, covers and slide rods to high grade stainless steel 300 series corrosion resistant material.**
- **Carey has upgraded the ALL AIR equipment to state of the art pneumatic valves with condensed valve configuration contained within Operator case for hazardous locations.**
- Offering the same equipment provides familiarity and comfort for those employees who are responsible for service and maintenance.
- Installing the upgraded version makes easy removal of existing equipment and allows for easy installation of new equipment. Most times this can be accomplished using the same installation procedures and existing drill holes and brackets without any modifications.
- The Stanley/Carey MAGIC-DOOR Pneumatic Operator door line has been in existence since 1935 and was the first automatic door equipment developed.

Advantages of MAGIC-DOOR Pneumatic Operators:

- Considered the most reliable, durable & cost-effective Automatic Door Operator in the industry for over 70 years!
- Virtually maintenance free for **20 – 30+ years!**

Please feel free to contact us at (203) 267-4278 if you should have any questions. Thank you.
