

OCTOBER 2016

## SPEAKER OF THE MONTH

### Terry Bloodworth

Terry Bloodworth of Springfield Hot Glass will do a presentation on glass blowing as a medium of artistic expression and as a way to create a career. He will bring examples of his studio's work and have a Q & A.

Mr. Bloodworth has been a production and demonstration glassblower. He began his career as an apprentice at Silver Dollar City's glass facility in 1977. There he learned traditional "off-hand" or "free-blown" techniques in the styles of late nineteenth century American glass.

In 2003 he opened Springfield Hot Glass with his son Gabriel, where they create contemporary art glass for the retail, wholesale and online markets.

Terry is married to Julie Gilmore Bloodworth. They have two sons and one granddaughter.
