“Mr. Shuck was retained to settle the Estate of a deceased family member that had thirteen heirs scattered across the United States and overseas, not one being a resident of Wyoming. He tackled this challenge with dogged determination and efficiency, knowing full well the implications a case such as this presented. The professionalism and expediency portrayed by Brian and his staff was truly the bright spot in the loss of our loved one. His solutions to unforeseen problems were on point and efficiently implemented. All of the heirs and myself unanimously agree that Brian performed above and beyond our expectations to settle the intricacies of this challenging Estate.”

"Brian is by far the best corporate attorney I know. His skills, knowledge and steady component advice is very valuable. He consistently helps me to view both the positives and negatives of any deal, and I would not be where I am without his thoughtful counsel. Anybody looking for an attorney in this field would be very wise to select Brian."

"Changing my rating for Mr. Shuck. At first I gave him a poor rating because I thought he never responded to my email. After going back and doing a thorough check through my email I found a response from him. I gave him a good rating because he took the time to read my email and responded but was unable to help me in this situation. People are very busy but it shows a little insight to a person's character and professionalism when they take time to even reply."
