Not just an audiometer - A full Counseling and Reporting Solution

New cutting edge software release! Faster results for more patient time.

The new Audiometry Software AC440 for the Equinox^{2.0} is very easy to use with its intuitive user interface offering a short learning curve.

At the same time the Equinox^{2.0} includes everything you need; a comprehensive test battery, customizable overlays for professional counselling, flexible reporting, built in wave files and recorded speech. And it offers you the possibility to customize it to fit your workflow even better.

At the end you will have more time to make the session a positive experience for your patients.

Equinox^{2.0} Highlights

- Quick and easy operation
- Patient counseling overlays
- Flexible Reporting
- Wave files and recorded speech (VA lists)
- Fully EMR compatible (XML and PDF)
- User defined test protocols, reports, and print layout
- Optional REM, HIT and Visible Speech mapping
- Built in amplifier
