

# Go!

## WHAT YOU NEED

Different objects to throw or put into a box or basket. You will also need the box or basket.

## HOW TO PLAY

Give the child an object and the box or basket. Each time you say “go,” they can throw or put the object into the box, or basket. Make a big fuss when the child listens (even if they don’t get the object into the box). “Well done, you really listened! Are you ready again?”

## PLAY IT A DIFFERENT WAY

Give a few objects to the child. They have to listen for you to say which one they should throw into the box.
