

Welcome to the baby room at Puddleducks

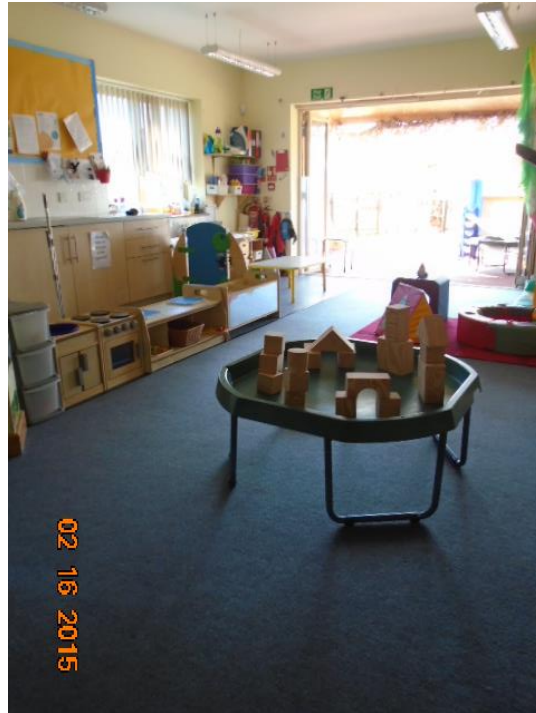

Exploring and investigating!

This is our room layout which changes weekly to keep it interesting

A small soft play area and reading area are popular spots to play in

Our messy play table is in constant use and a daily activity. The children like nothing better than to be creative.

**This is our tuff tray for learning and exploring.
This may be building blocks or a colour theme.**

**Our home corner and self-selection units.
The children love to look at what toys are
available here.**

This is our sleep area.

It is a small annex off the play room which allows us to easily check in on them sleeping.

This is our outdoor area, full of exploration and fun. The picture shows some cars sliding down a cascade which the children love. We also have the small slide which is an all-round favourite.

Here we have our mud kitchen and bug hotel. Also pictured is our play house.
