

Letter from the President

The PAC has come a long way during the past twenty years bringing an expanded menu of performing arts to our mountain community. From Broadway to bluegrass, chamber music to comedians, we have something for every age and taste.

And this year, with the opening of our new theater, we will be able to present even bigger and better performances. A tribute to the Allman Brothers for example, would not be able to perform in our current theater. The future looks bright for the PAC and it is because of you and our other supporters. Unlike any other performing arts center, we have been built and supported from "Day One" by individuals with a passion for the performing arts.

From the early dreamers Sandy Cohn, Ruth Gershon and Bill and

Nell Martin who wanted a permanent home for the Chamber Music Festival to the 2015 PAC board members inspired by a dream of Mayor Pat Taylor to build a facility to enable all the performing arts under one roof, this is the people's building... and big things are coming!

Rick Trevathan

President, PAC Board of Directors

Letter from the Executive Director

Wow! What an exciting time for our performing arts community. Every day I marvel at the construction work that has been accomplished.

Each week I look forward to seeing what will be accomplished.

I can't wait to welcome all of you to your new theater. Like Rick said, you built this theater with your passion and commitment to the performing arts. This is YOUR theater! As of this writing our first performance in the new theater will be on September 17, 2022 with the internationally acclaimed *Bravo Amici*. I promise you it will be an evening to remember!

With gratitude,

Mary Adair Trumbly

Performing Arts Center, Inc. Board of Directors
