

When I first saw Dr. Sanders I could not walk across the room without holding on to something as I would sway badly from dizziness. I had had a very bad vertigo caused by a crystal breaking loose in my ear. It would not leave me, I could not recover from the dizziness.

Thanks to the wonderful treatments from Stephanie Ford, PT, I am now walking with no problems, I can bend over with no dizziness now. I really am glad I was sent to Dr. Sanders by my ear doctor.
