Mission, Vision & Values

Our Mission is to improve the lives of people by inspiring personal growth, health, and wellness. Our Vision is to be the preferred provider, employer, and community partner positively transforming lives nationwide.

Our Values:

Collaborative - We work as a team to accomplish common goals by welcoming each individual's unique perspective and expertise.

Compassion - We listen to all perspectives without judgment and stand stronger together.

Inclusion - We value a culture that is inclusive of all perspectives and promotes diversity at all levels.

Integrity - We set high standards for ourselves and the services we provide by promoting ethical and honest conduct every step we take.

Commitment - We are dedicated to delivering the highest quality services in an open, ethical, inclusive and positive environment.

Accountable - We take responsibility for our actions and outcomes.

Person-Driven - We join the people we serve on their personal journey and partner with them as they plan each step along the way.

Interested youth or parents, please call

The Substance Use Division Access Line

1-866-266-4898

Or call the Clinic directly to schedule an appointment

How is this going to help ME?

Through interaction with peers and counselors you will learn new ways to make healthy choices. Learning how drugs change the chemicals in the brain will allow you and your family to have a better understanding of the effects of drug and alcohol use.

Who is Eligible?

Any Adolescent between 12 to 17 years old seeking treatment for substance use disorder.

Fees?

Most of the services are covered by MediCal

Outpatient Services:

Outpatient services consist of less than six hours per week for adolescents, which can include group and individual counseling for recovery or motivational enhancement. Outpatient services include intake, treatment planning, individual and group counseling, family therapy, patient education, collateral services, crisis intervention services and discharge services. These services are provided utilizing evidence-based practices. Re-assessment will be conducted every 6 months or as needed to determine if treatment should be modified or discontinued, and a referral to recovery services is appropriate.

Case Management Services:

During the course of treatment, case management staff will provide resources, advocate for the individual, and assist with linkage to physical and mental health care as appropriate. CCS team will assist in getting access to needed medical, educational, social, prevocational, vocational, rehabilitative or other community services. These services focus on coordination of SUD care, integration in primary care, especially for beneficiaries with chronic substance use disorders and interaction with the criminal justice system.

Recovery Services:

Recovery Services may include a combination of outpatient counseling services, recovery monitoring/coaching, substance abuse assistance/peer to peer services, and relapse prevention. Recovery Services will also include linkage to education and job skill resources, family support, mutual aid/support groups and other support services, transportation services, housing ancillary services. After completion of treatment with the goal of emphasizing the patient's central role in managing their health, use of effective self-management support strategies and how to organize internal and community resources to provide ongoing self-management support.

Community Support and Resources:

CCS strongly encourages individual to attend and develop a healthy support group to help in maintaining a drug free lifestyle. It is very important to have a positive support system, which can include sober friends, church, pro social extra curricular activities such as clubs and sports activities during and after treatment.
