

2019 SPRING CONFERENCE

Pzazz! Midwest Entertainment and Resort
April 4-5, 2019

ISOSWO Spring Conference Sponsorship Information

The Iowa Society of Solid Waste Operations (ISOSWO) is the Iowa Chapter of Solid Waste Association of North America (SWANA). We are a statewide organization whose members are directly involved in solid waste management issues. Our members include public and private sector employees, along with consultants, engineers, planners, regulators, and local elected officials.

Each spring we hold a conference to bring together integrated solid waste management facility (landfills, transfer stations, compost centers, and recycling centers) managers, operators, board members, and consultants to learn about current industry topics and to network among peers. The support of sponsors is greatly appreciated and allows us to keep our attendance fees reasonable and our speaker expectations high. Thank you for considering supporting the solid waste, recycling, and composting network in Iowa!
