Chaplain's Message

A Special Letter

Here is a letter written by a thoughtful young man to his sister. I felt it worth sharing with the club, because of the heart felt words, that seem to be so appropriate in these days, in a world so full of problems.

Hello sister that I Love,

I want you to know that although we see things from different perspectives we are on the same team. By that I mean, God comes first, I do not always understand why, but that His ways are Holy and that he loves us.

I mean it, GOD really loves us, you are his favorite.

Sin entered the world through our selfish desires, that result in ripples of mess that gets all over everything and each person. We are saved by grace, not our actions and all of our actions are as filthy rags. That gift of salvation has perfected us (acceptable to enter Heaven), while not making us without faults, opinions, problems, bad days or preventing horrible decisions.

The 'same team' in that we help those that need help, That is God's Love pouring out of both of us, so that people might see Jesus.

That also means being rightfully annoyed with injustices that man perpetrates onto one another. With that comes the issue of forgiving, God tells us to forgive, and we must without strings, (but allowing danger to harm you or your family is not acceptable). Those that do not provide or protect will be punished by God too.

The human condition cares too much about appearances and impressions because of pride. That is why I help the homeless and other organizations because it is not my responsibility to control their choices or decisions, but it IS my responsibility to listen to God and help the poor.

The 'same team' means God picked us, just as we picked him. I'm not sure why God gave me certain talents, but I know why he gave me the opportunities. His endless love means that he wants me to decide to follow him and to pass that endless love to others. The lessons we get out of going through the trials are to help us grow, to focus on God and to give us a testimony to help the next person.

A letter shared by Stan

President McCully's Message

My fellow Car Club Members,

My oldest grandson, Lucas, and I just returned from Omaha, Nebraska. It was a driving trip over Memorial Weekend, up on Thursday and back on Tuesday, a little over 1,400 miles. Lucas has his learner's permit so I thought this would be a great opportunity for him to get time behind the wheel and drive. Lucas drove half of the trip while I sat in the passenger seat unable to close my eyes and sleep. Normally, that is what I do if I am not driving. I guess I am a bad passenger.

Where does the time go? It was not long ago I was teaching my kids how to drive and now I find myself teaching their kids. I find the older I get the more patience I have, but it is still an uncomfortable feeling to sit in the passenger seat having little to no control as you travel down the road. So uncomfortable that Pam has two new holes in the passenger side floorboard of her truck where a brake and accelerator pedal might go. Fortunately, I can still reach the steering wheel.

Do you remember learning how to drive? I do. Driver's Education was a required class in high school so I took it as a sophomore. The duty of teaching outside of class fell to mom because dad was in the military and stationed overseas. I am sure mom turned prematurely gray teaching each of us five kids how to drive. I know I scared her a few times even though I tried to assure her that what I had done was skillfully planned and carefully executed.

I successfully passed the driver's test, as I am sure Lucas will when the time comes. However, receiving that license to drive only means you have successfully met the minimum requirements necessary to obtain that license. Now go out and learn on your own.

Until Next Time

The only thing hotter than the Texas Heat was the Crazy Ladies selling T Shirts!! Great job ladies!!

The ladies sold another 36 T's Saturday night and 32 the show before so we are down to a measly 108 shirts for the following 5 shows. Of course the big seller is the Blue shirts with 38 sold during the last 2 shows!! So if you want a Blue T for yourself, see the Crazy Ladies 1 st thing at the next show! I also have 4 small Safety Green T's left from my surprise sale, so if you want one, see me at the meeting or car show for purchase.

Last call for club shirts or caps! I had another addition during the car show so if you need a new cap or one of the new light weight club shirts please let me know, I need to get these made up shortly!!

Membership, we had our last holdout pay their dues so we are up to 58 families for the year! See you at the next meeting!

Stay cool,

Steve

“Hot Rodders of Tomorrow”

FIVE “Hot Rodders of Tomorrow” Teams Qualify at Tarrant County College

Nine teams of five students from seven different schools in Texas and Oklahoma competed at the fourth Hot Rodders of Tomorrow (“HROT”) Engine Challenge event of the season, hosted at Tarrant County College in Fort Worth, Texas, on March 24, 2018. Five teams made the cut and will have a chance to win thousands of dollars in college scholarships at the 2018 Dual National Championship Playoffs in November and December at the SEMA Show and PRI show, respectively.

To qualify for the Dual National Championship, a team must finish disassembling and reassembling a small-block Chevrolet engine in less than thirty-three (33) minutes, including penalties.

*Team Custom Automotive Network (CAN) from Eastern Oklahoma County Tech Center in Choctaw, Oklahoma, won first place with a blistering time of **19:36**, and yes, that is nineteen minutes and thirty-six seconds to tear down and then rebuild (to specific torque and assembly specifications). Two teams from Hereford High School out of Hereford, Texas, participated and qualified: Team Proform took second place with a time of 27:40 and Team Vibrant Performance came in fourth with 30:46. Team Comp Cams from Pontotoc Tech Center from Ada, Texas took third place with a 29:14 time. The fifth-place qualifier was first-time participant Team PRW from J. W. Nixon High School in Laredo, Texas, with the time of 32:05.*

“This is a great program that is really going to benefit my students,” said Abel Sanchez, the instructor at J. W. Nixon High School. “One of my students is a senior and going to attend UTI and the scholarship is really going to help him out. The team comes from a low social economic background and the HROT program will benefit students for years to come.”

Text and photo from: Tomorrow’s Tech

Comments by Bobby Stout:

This event is held each year at Tarrant County College. In conjunction with this event, Painless Performance also sponsors the annual National Street Rod Association’s Appreciation Day (NSRA). Bobby Stout, NSRA North Texas State Representative, said “We believe it is a great opportunity to let these aspiring hot rodders of tomorrow actually see the same Chevy 350 cubic inch engine that the students are using during the competition actually installed in some of the hot rods and street rods and trucks. The trucks dominated the parking lot this year,”. Bobby also stated that it is very entertaining to watch these young people, both as individuals and specifically to watch them all work as a team unit.

Follow these young men and women as they journey to Las Vegas for the National Finals in the Hot Rodders of Tomorrow challenge.
