Meet Crayle Vanest, Midwest Regional Director for Students For Concealed Carry on Campus, and the "Executive Director" over its fundraising arm, *SCCC Fund*. Crayle likes to sell her artwork of sea turtles and other animals on Society6.com website — that is, when she's not promoting AR15 giveaways on Twitter.

AR15s were the weapon used to slaughter 14 people in the San Bernardino massacre; 9 people at the Umpqua CC slaughter; 12 people at the Aurora Theater in Colorado, and 20 1st graders at Sandy Hook Elementary.

We will be heard!

Psychopathic killers and terrorists love the AR15.

So why is she promoting them?

Tell her she's wrong to help killers get guns.

SCC SW Reg. Dir. Antonia Akafor likes facts. So do we.

Meet SCC's S W Regional Director, Antonia Okafor. She oversees and coordinates SCC lobbying activities in four states (TX, OK, AZ, NM) and likes to write long, windy press-releases daring others to "prove" things.

She also thinks Ted Cruz would make a great U.S. President.

You remember Ted? He engineered a government shut down in 2013., and has received over \$36,000.00 in donations from the NRA since, according to public records.

WE DON'T THINK GOVERNMENT SHUT-DOWNS ARE VERY PRESIDENTIAL OR THAT NRA PUPPETS MAKE TRUSTWORTHY LEADERS.

Whoever heard of a full-time executive director of a national non-profit going unpaid?

They claim all their "leaders" are just unpaid volunteers.

Really?

October 11, 2015:
"Students for Concealed Carry Foundation is proud to announce the hiring of our first full-time staffer, Crayle Vanest. Vanest will be filling the position of executive director."

WHOEVER HEARD OF AN UNPAID ED FOR A NATIONAL 501(C) (3) ?

Antonia Okafor claims to like "facts." How does that work if she's willing to spread libertarian propoganda?

ANTONIA OKAFOR
Texas Campus Correspondent

Morton C. Blackwell, the founder of LI spends an entire webpage detailing how Campus Reform helps expose "Leftist Abuses and Bias on Campus." Among his ad nauseum pearls, college campuses are infested with:

- Leftist faculty.
- Libraries with too much leftist literature
- Student governments that are too leftist.

In fact, pretty much everything collegiate is a cesspool of "leftist ideology." <https://goo.gl/hy91K>

Meet Antonia Okafor, the SW Regional Director for Students for Concealed Carry. When she's not busy lobbying ALEC-paid state legislators in the four states of her jurisdiction (TX, OK, AZ, NM,) to get guns onto campuses by untrained amateurs, she's busy spinning libertarian articles for **Campus Reform**, an ultra-conservative website, created and funded by **The Leadership Institute**. The purpose of CR is to root out and expose so-called dirty "liberal bias" on campuses. Like Climate Science, or how having students denied guns in classrooms is trampling their civil liberties. In one article, students are becoming "depressed" from a lack of exposure to Christian values. In another, campus-crashing Pro-lifers with posters of disgorged fetuses get her sympathy. She thinks their free-speech rights were denied.

Antonia probably thinks that writing for CR, a libertarian organ, and for SCC — whose leaders receive "activist training" from the LI, somehow makes her objective and logical.

Wrong. IT MAKES HER A PROPAGANDIST.
