***“It’s*** unwise to pay too much, *but it’s unwise to pay too little.* When you pay too much you lose a little money, that is all. *When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing you bought it to do. The common law of business balance prohibits paying a little and getting a lot — it can’t be done. If you deal with the lowest bidder, it’s well to add something for the risk you run. And if you do that, you will have enough to pay for something better.”*

I have owned Prairie Sundown since 2008. He stands 15.3 and is a true 1180 pounds. He has a deep heart girth and incredible lungs. He has thousands of miles of sheep, mountain goat, elk, horn, and pack trips under his belt. He has been my solid companion and lead horse since he was 4. He will ride, pack, load, and stand for farrier. He is easy to catch and is always up for leading the way. He has an amazing neck rein, will ride bareback with a halter, move away from leg pressure, and back up on command. He is as tough and athletic as any I've ridden.

He doesn't miss a step in the bad stuff. He'll go over any obstacle and will attack hills with a vigor that is unmatched! He will cross any body of water and will plow through snow. There is no question he will be the toughest horse you've owned. This guy has no quit! If you are looking for a horse that has seen and done it all, this is the one! Ride him with confidence and he will do anything asked. It is with a heavy heart that I am parting with him.
