

The CBI Monthly

Welcome to the first edition to the new and improved “CBI Monthly”. We are doing something different this year. Not only will you get the latest in what is happening in CBI but you will also get to read articles written by the students in CBI. This could be anything that they find important enough to share. We hope that you will enjoy the new format!

Dogs are Better than Cats

By Carter Thrasher

In my story I'm going to talk about how dogs are better than cats. I believe that dogs are better. My first reason is that if you touch a cat in the wrong way it is going to bite you, however if you touch a dog in any way they are still going to want to play with you. My second reason is that cats don't really care where they use the bathroom, dogs; you just have to teach them in 2 weeks they got it. My final reason is if you pick a cat up in the wrong way and hold them like a baby they will try to smack you in the face and bite you. But if you hold a dog like a baby it's going to lick you. These are all my reasons why I think dogs are better than cats.

Welcome!

By Destiny Mulcher

Welcome to the new CBI Newsletter. The month of September is a rough month for every West Branch student as it means our lovely summer vacation is coming to an end and we have to wake up earlier than ever however, it also means we can see some of our closest friends and get back on a simple routine. Due to school starting back up, which means that we CBI students have to continue the CBI newsletter. In this newsletter, CBI students will explain something that interests us or explain what we are currently working on.

For the month of September, we are currently creating and working on multiple things. For example, we have already created a motto to outline what we are in CBI. The winning slogan ended up being “**Creative, Boundless, Imaginative.**” and was won by majority votes. And adding to the slogan, we have to create a logo that we can wear proudly that can represent our class and ourselves correctly.

Hopefully, by the end of the month, we will be able to show off our CBI

How to Make a Pizza

By Jayden Franklin

1. Make the dough using flour, salt, yeast, oil, and water.
2. Mix it
3. Shape it on a pizza tray of any shape.
4. Start making the pizza sauce you can use a pre-made sauce “if preferred” DON'T USE CHUNKY TOMATO SAUCE EWE.
5. Sauce ingredients oregano, Italian seasoning, garlic powder, onion powder, garlic salt, pepper and sugar and tomato dough.
6. Now mix up your sauce
7. Spread sauce on dough
8. Put cheese “any kind”
9. Add your favorite toppings!
10. Put in an oven between 450-500 degrees for 10-15 minutes (depends on the size of your pizza) or until you like it.
11. Enjoy!

Snakes

By Hailey Brooks

Scared of snakes? Snakes are feared by most but snakes are not the scariest animal. Snakes play off of instincts so if they sense fear off of their surroundings, they protect themselves. For example, western hognose snakes play dead or push out their necks to look like venomous snakes. Snakes aren't scary unless they have to make themselves look scary. Ball pythons curl up in a ball when feeling threatened. Not all snakes are flighty, so snakes aren't scary animals.

About My Summer

By Alaina Cover-Offill

This summer was enjoyable and I and my brother and my aunt did a lot of stuff.

I went to birthday parties when there were little kids. They turned 5 and 7.

We also went to the pool and had fun with my aunt and best friend of 16 years, and her kids.

What I also did was have a birthday party for myself and I got a lot of things but the day of my birthday I went to a Texas Roadhouse.

I played many games on my game and that's pretty much it.

What is CBI?

By Katy Edwards

CBI (Career Based Intervention) class is for students of any age. It teaches academics through career-based training. Students will take clusters of courses and participate in projects centered around choosing a career. You also learn a bunch of new things you may not have known like writing a cash check, or filling out job applications and job resumes. Farther into the year our class will make and sell t-shirts for West Branch High School students, and teachers, along with sports teams! Mr. Davis does everything in his power to make sure his students will have a fantastic and fun safe year. He provides help to students if they are behind on work in any other classes.

How to Make Tea

By Brennan Wallace

1. Fill up the kettle with water.
2. Boil the water in the kettle.
3. Place a teabag in your favorite mug.
4. Pour boiling water into your favorite mug.
5. Brew the tea for a few moments.
6. Remove and dispose of the teabag.
7. Add milk.
8. Add sugar.

Cats

By Alinee Bacconi

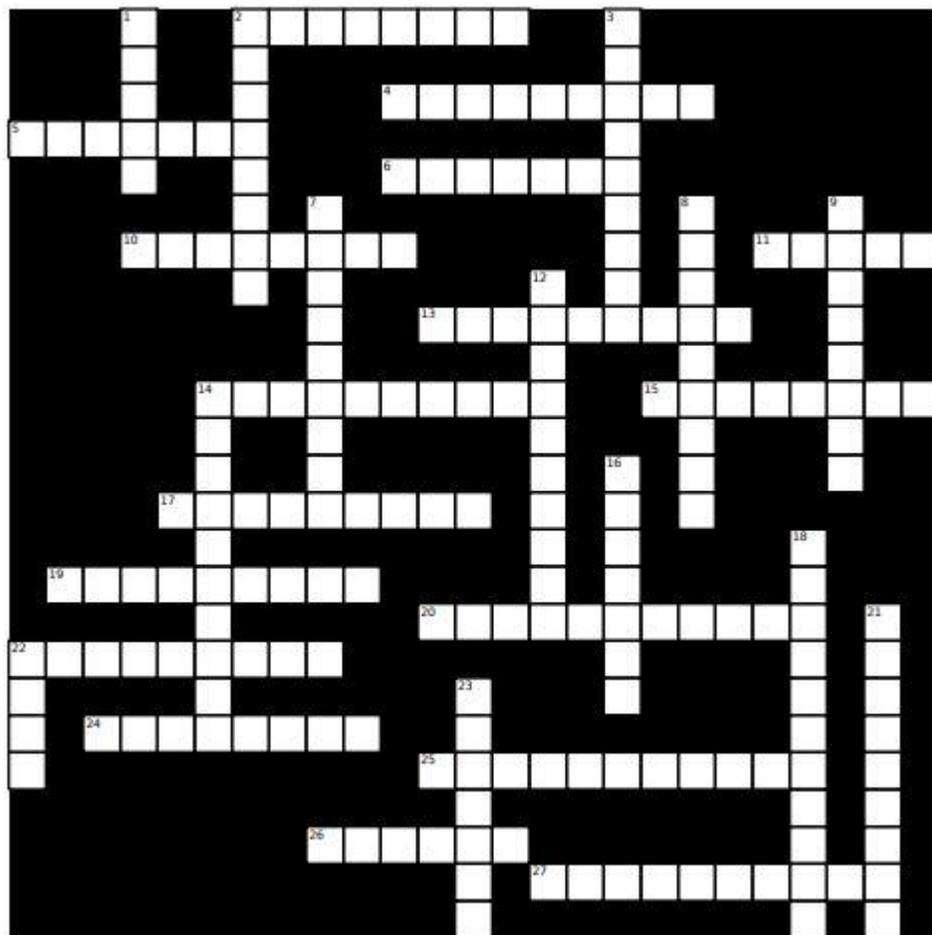

Do you like cats? There are many different types of cats. Some of them include Siamese, British Shorthair, Maine Coon, Persian, Ragdoll, Sphinx and the most common, Domestic Short-hair cat. Some cats have an angry personality and some are sweet.

Did you know that cats are the only mammals who can't taste sweetness? Most cats eat cooked beef, chicken, turkey, and small amounts of lean deli meats. They can also eat different types of dry cat food. Did you know that cats sleep for around 13 - 16 hours per day which is around 70% of their life?

How to Get Cows Ready for the Fair

By Nicole Deckerd

Do you like getting cows ready for the fair? I start off with washing the cows. Then when the cows are done washing then they will need to air dry. Then when they are done air dry then you take them in the barn and then we start clipping the cows. Then when we are done clipping the cows we will walk them around and work with them. Then after that we will put water on them. Then after that we will get a trailer ready and get the cows in the trailer to go to the fairground. Then when we get to the fairgrounds we will get the cows out of the trailer and put them where they go. There we go to the camper and then the fair is ready to go.

Basketball

By Audrey Eaton

Do you like basketball? Basketball is a very competitive sport. In fact, basketball is my favorite sport. Basketball is one of the most popular sports in America. Basketball became a professional sport in 1898, James Naismith invented basketball. Professional basketball is played indoors but a lot of people play pickup basketball on outdoor basketball courts. The first women's professional basketball game played was in 1978.

4-H

By Katlynn Kiko

Do you like 4-H? I started 4-H when I was 9 because of my dad. My dad was a 4-H adviser for 3 years. When I was really little we had chickens, hogs, and goats. My father asked if I wanted to do 4-H and I said yes. I named one of my goat's buddy and he got really sick one year and the goat commie said that I could not show because it had a kidney stone. We complained for a long time so that I could show my goat. At first, they said no until my mom and dad had a meeting with the goat commie, and they finally let me show. On the day of the show I did really well and got 2nd place which is reserved champion. Then something terrible happened. My goat died right before the sale. I cried for a very long time because I wanted to make some money.

Why Electric Cars Should Not Replace Gas Cars

By Robert Lewis

1. There aren't enough electric chargers across the country to make the switch from gas to electric
2. Although people claim that electric cars are better for the environment lithium mines are giant holes in the ground that can be up to 5 miles long that destroys all the wildlife in the area permanently but when a pipe line is put in eventually a forest will grow around it
3. In the next 15 to 20 years we will run out of lithium but we still have 100 years' worth of gas just beneath the American soil.
4. Electric cars are very expensive to purchase and repair with the average cost of an electric car being
5. 6,000 dollars and 1,000 dollars for a recondition and 2,000 dollars for a rewind.
6. Lithium batteries contain metals such as cobalt nickel manganese which are toxic and can contaminate water supplies and ecosystems if they leach out of landfills.
