

Good morning!

A repeat clip with a couple additional notes for it. The clip from Monday is [here](#).

Two additional concerns here.

- 1) The U1 and U2 should definitely be almost on the sidelines instead of 'out on the floor' as they are. They could easily get caught in a fast break off the jump and we do not want that to happen.
- 2) After the foul call, the R (or whoever is right there to report to the table) should make sure that the arrow is set correctly. On this particular play, blue gained possession legally, white fouled blue, blue gets the ball for a throw-in and white gets the arrow since blue had the first possession.

Thursday Extra: THANK YOU for everyone who puts thought and discussion into these plays and replies with comments!

Thursday Bonus: Make sure to give time AFTER the game to your partners or an evaluator. Be attentive and receptive to what s discussed!

Have a great game tonight!

Tim
