

Welcome to our website. The TAEVT organization exists for the betterment of our families and communities. We work together, as a group of committed EVT's, for the collected enhancement of our skills, the acquiring and sharing of knowledge, and lastly, but most importantly, the creation of a brotherhood. We are not only a community of mechanics who have fallen into the abyss of craziness to repair the vehicles of the human heroes of Texas. Through networking, we create relationships and a brotherhood by uniting all makes, brands, manufacturers, and models. It's about training, learning, making mistakes, and at the end of the day, the repairing, making things work again, and of course sometimes resurrecting the apparatus from the dead. At times, as either a collected group or as an individual we are asked to take a very low municipal budget and perform miraculous outcomes of unspoken, unrecognized, and sometimes unappreciated results.

The daily reality of most emergency vehicle mechanics creates the mentality of "They are the heroes, but 911 calls us for help." This organization was founded for this great cause and with your participation and efforts collectively, this is accomplished. Being a professional EVT defines the philosophy of paying it forward and truly shows professionalism by serving with a humble heart.

Thank you for visiting our website. Please take the time to send us an email, follow us on social media, register for membership, and attend our meetings and conference. Join us to be a true professional and share your wealth of knowledge and experience with others. Do not break the cycle, but make it a strong chain where you as an individual or as a group help your local law-enforcement and emergency response personal.
