

THE YEAR OF LIGHT - 5776

THE ASTRONOMICAL CLOCK OF PROPHETIC TIME CORRELATING TO THE TEMPLES OF TIME

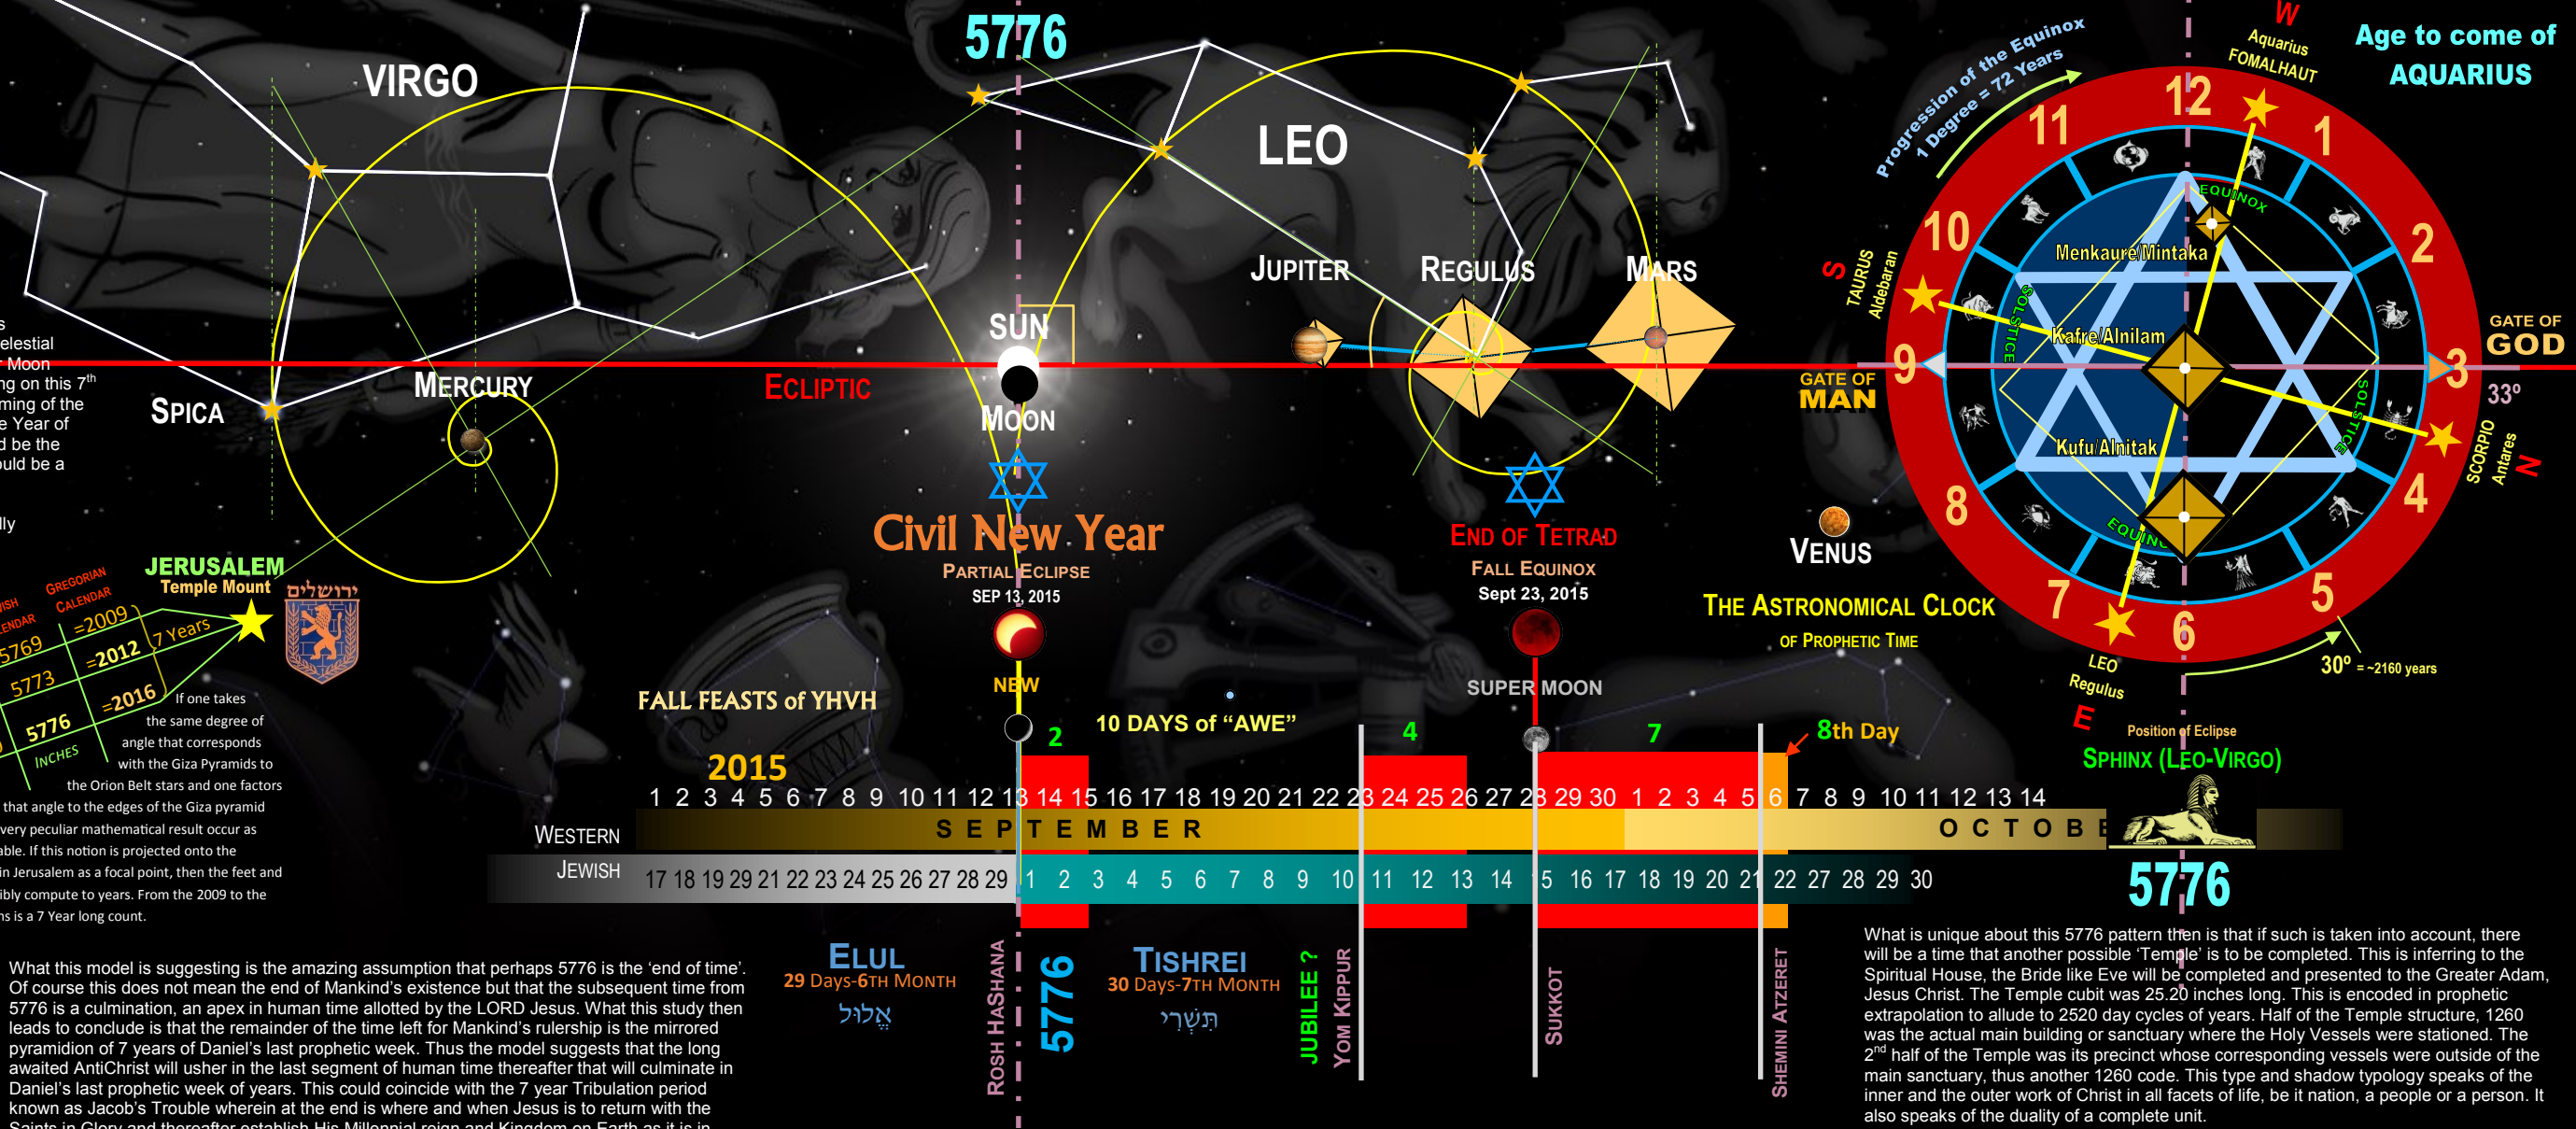

The purpose of this illustration is to correlate several layers of symbolism with historical and geometric sacred geometry to ascertain clues to when the possible 'end of time' is to be reached. This study will suggest that the Jewish year 5776 that starts on Rosh HaShana on September 13, 2015 is that possible date for the various clues that will be presented in this illustration. This study suggests that the date of 5776 will start the 'overtime' that is still left and allotted for Israel's redemption to fulfill Daniel's last prophetic week of years, being a 7 year Biblical week of years. Why it is suggested that it very well could be the 7 years is that it mirrors the prior 7 years from 2009 that the code of the Great Pyramid suggests will signify the 'end of time' prophetically based on its pyramidion pattern. The supposition is that this number-year of 5776 has to do with 2 buildings in particular, the Great Pyramid of the past and the coming 3rd Temple in the near future. Both will be shown to be directly related to their completion with regard to the Great Pyramid and its commencement in terms of the 3rd Temple. The key is the Great Pyramid pyramidion or capstone pattern countdown that is etched in its very blocks of measurement that this study suggests are in fact a monument to the start 'time' and the end 'time' of human history. Prophetically this study suggests that the Great Pyramid of Giza has encoded this particular time, this particular year of 5776 as the ultimate meaning of its construction is that it anticipates this 'end of time'. The solar eclipse is in conjunction with the planetary alignments on either side of the Ecliptic that will be illustrated to be occurring in phi ratio to this astronomical delineation of time and place. The planetary alignments also configure a celestial pyramid when the solar eclipse is superimposed with the phi ratio template of the planet alignment in Virgo and Leo; the very 'capstone' is seen in Leo's tail section. Also the Giza pyramid complex of the 3 'Time Markers' are aligned approximately in the same arrangement in Leo centered on the star Regulus. How this year of 5776 is 'clocked' by the Great Pyramid is based on the theory of David Flynn where inches equal's years. This correlation is not anything new as there have been mathematical extrapolations made from the Ascending Shaft for example. What Flynn did was to highlight the Great Pyramid's height from feet to inches, 5776 and deduce that it was a year correspondence.

Will the year 5776 see this completion of the metaphorical pyramidion which could correlated to the end of the Church Age as the 7 year countdown to the 3rd Temple is to occur based on the pyramidion pattern of the Great Pyramid or Temple? What this study is suggesting is that if the Great Pyramid pattern is valid and reliable, then all the apparent accompanying celestial signs such as the Blood Moon Tetrad pattern, the Super Moon pattern, the Jubilee War pattern and so on are converging on this 7th cycle of 7 year span of time. As it has been noted, the timing of the Rapture of the Bride of Christ could be tied to the Jubilee Year of Release in 2015-16. The context of this time frame could be the 'Peace and Security' many are extolling even now but could be a disguised Jubilee War. Thus a Jubilee countdown to judgment and a release that occurs on 5776 may very well be marking the time, astronomically and prophetically of and end of time and a beginning of a time.

What this model is suggesting is the amazing assumption that perhaps 5776 is the 'end of time'. Of course this does not mean the end of Mankind's existence but that the subsequent time from 5776 is a culmination, an apex in human time allotted by the LORD Jesus. What this study then leads to conclude is that the remainder of the time left for Mankind's rulership is the mirrored pyramidion of 7 years of Daniel's last prophetic week. Thus the model suggests that the long awaited AntiChrist will usher in the last segment of human time thereafter that will culminate in Daniel's last prophetic week of years. This could coincide with the 7 year Tribulation period known as Jacob's Trouble wherein at the end is where and when Jesus is to return with the Saints in Glory and thereafter establish His Millennial reign and Kingdom on Earth as it is in Heaven.

What is unique about this 5776 pattern then is that if such is taken into account, there will be a time that another possible 'Temple' is to be completed. This is inferring to the Spiritual House, the Bride like Eve will be completed and presented to the Greater Adam, Jesus Christ. The Temple cubit was 25.20 inches long. This is encoded in prophetic extrapolation to allude to 2520 day cycles of years. Half of the Temple structure, 1260 was the actual main building or sanctuary where the Holy Vessels were stationed. The 2nd half of the Temple was its precinct whose corresponding vessels were outside of the main sanctuary, thus another 1260 code. This type and shadow typology speaks of the inner and the outer work of Christ in all facets of life, be it nation, a people or a person. It also speaks of the duality of a complete unit.

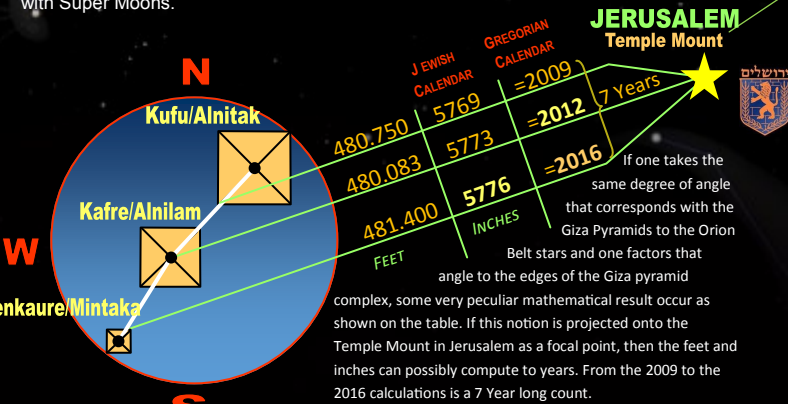

THE YEAR OF LIGHT - 5776

THE ASTRONOMICAL CLOCK OF PROPHETIC TIME CORRELATING TO THE TEMPLES OF TIME

Thus based on the Flynn's theory and pyramidion pattern of the year 5776 and the 7 year timespan of the capstone it is when the Great Pyramid or 'Work' ends and the 3rd Temple is to be begin in tandem with the rule of the AntiChrist and his New World Order. This pattern based on the Great Pyramid 5776 pattern has major and profound prophetic implications. It illustrates just how close the end of the Church Age is and when the Rapture is to occur, specifically that 5776 is to see the end of the Church Age and the subsequent Rapture occur. This is a monumental and specular statement to be made if the pattern of the 5776 Great Pyramid and the 7 year timespan is to be played out. This scenario on the other hand could be mere coincidences and human history's end is still yet to be determined and lasting beyond for decades if not millennia. On the other hand, if not then amazing as it sounds, Humanity has reached the 'end of its time' prophetically. The last 7 years from 5776 is suggested to be the 'overtime' that will conclude the 'end of time' for Humanity's history after which Jesus returns to rule for the remaining 1000 years from the 4th Temple, that of Ezekiel's. What this study will further build upon Flynn's work likewise are some spectacular innuendos based on this theory of 5776 being the apex or culminate, end of 'time' or Age. For one, this study does agree that most likely the 3rd Temple will be built if this pyramidion pattern is reliable and valid; the Tribulation period will be indeed 7 years. Several alignments will be highlighted corresponding to the solar eclipse on 5776. The study will also illustrate amazing date correspondences taken from the Great Pyramid blueprint.

THE TIME OF THE TEMPLES

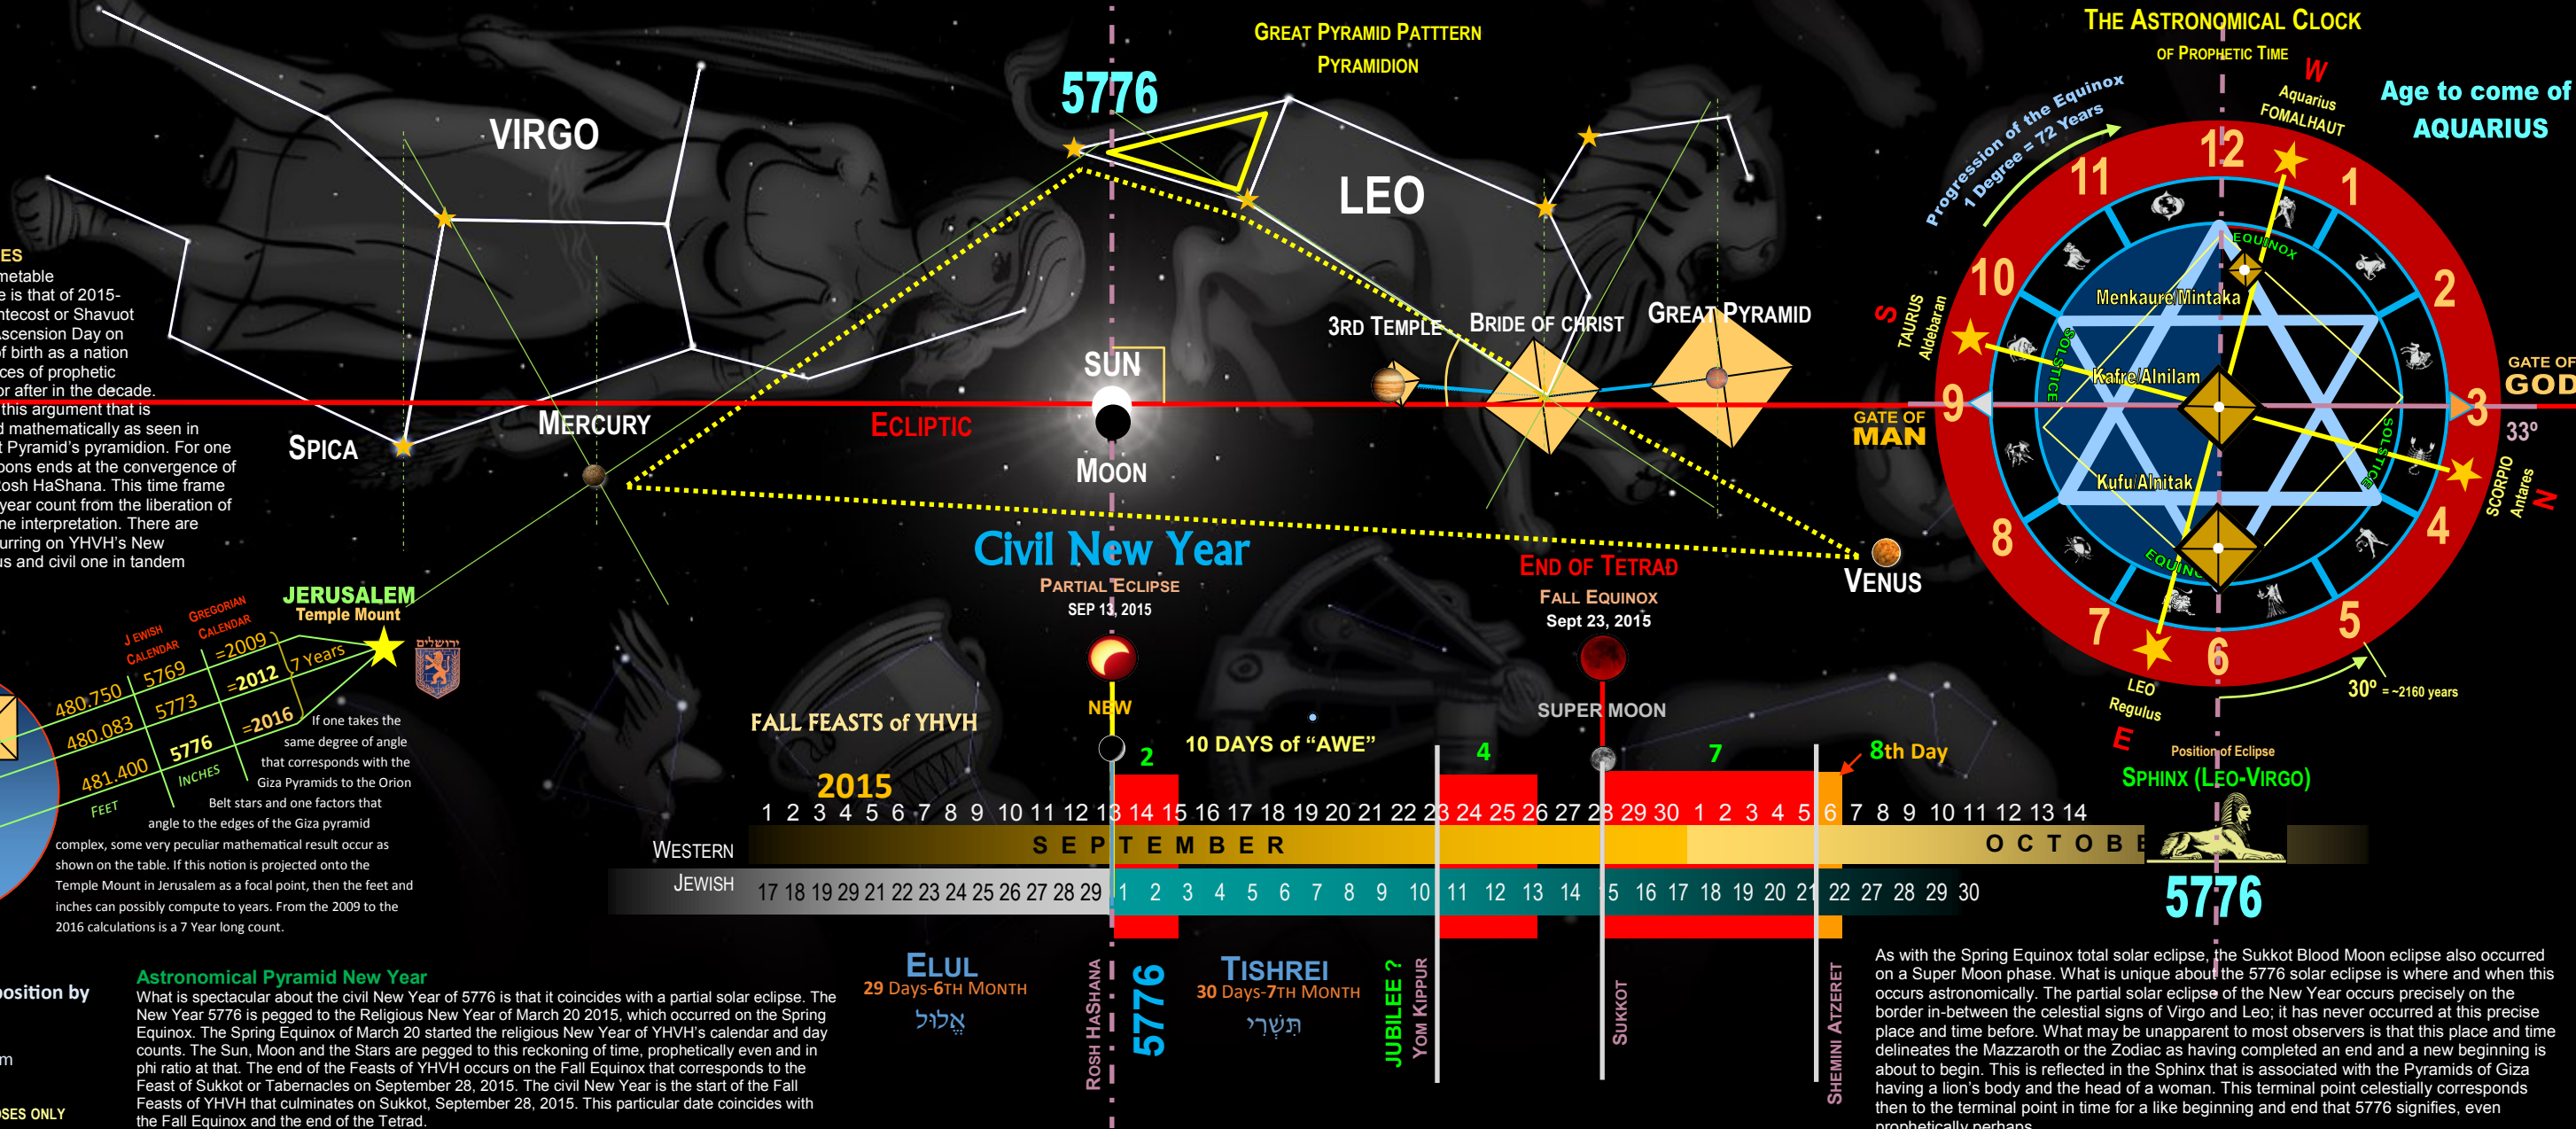

Of recent, the latest popular timetable for the Time of Jacob's Trouble is that of 2015-2022. In 2015 the Feast of Pentecost or Shavuot occurs on the same day and Ascension Day on the same day as Israel's day of birth as a nation in 'one day'. These convergences of prophetic timelines do not occur before or after in the decade. There is much to contribute to this argument that is compelling, astronomically and mathematically as seen in prophetic patterns of the Great Pyramid's pyramidion. For one there is the Tetrads of Blood Moons ends at the convergence of the start of the year 5776 on Rosh HaShana. This time frame also culminates in the Jubilee year count from the liberation of the Temple Mount based on one interpretation. There are the peculiar solar eclipses occurring on YHVH's New Years, respectively the religious and civil one in tandem with Super Moons.

Astronomical Pyramid New Year

What is spectacular about the civil New Year of 5776 is that it coincides with a partial solar eclipse. The New Year 5776 is pegged to the Religious New Year of March 20 2015, which occurred on the Spring Equinox. The Spring Equinox of March 20 started the religious New Year of YHVH's calendar and day counts. The Sun, Moon and the Stars are pegged to this reckoning of time, prophetically even and in phi ratio at that. The end of the Feasts of YHVH occurs on the Fall Equinox that corresponds to the Feast of Sukkot or Tabernacles on September 28, 2015. The civil New Year is the start of the Fall Feasts of YHVH that culminates on Sukkot, September 28, 2015. This particular date coincides with the Fall Equinox and the end of the Tetrads.

As with the Spring Equinox total solar eclipse, the Sukkot Blood Moon eclipse also occurred on a Super Moon phase. What is unique about the 5776 solar eclipse is where and when this occurs astronomically. The partial solar eclipse of the New Year occurs precisely on the border in-between the celestial signs of Virgo and Leo; it has never occurred at this precise place and time before. What may be unapparent to most observers is that this place and time delineates the Mazzaroth or the Zodiac as having completed an end and a new beginning is about to begin. This is reflected in the Sphinx that is associated with the Pyramids of Giza having a lion's body and the head of a woman. This terminal point celestially corresponds then to the terminal point in time for a like beginning and end that 5776 signifies, even prophetically perhaps.

COMPLETION OF THE CAPSTONE

THE ASTRONOMICAL CLOCK OF PROPHETIC TIME CORRELATING TO THE TEMPLES OF TIME

The height of the Great Pyramid from the base is 481.40 ft. or 5776 inches, thus correlating to the year 5776 based on Flynn's theory. The truncated pyramid as it stands now without the capstone is at 480.75 that corresponds to 5769 inches or the year 2009. He ingeniously surmised that the capstone or pyramidion was a prophetic 7 year span of time from 2009 that highlighted the year 2016 or 5776 with 2015 overlapping. Flynn's theory is that the difference of the capstone is a coefficient of a 7, thus a 7 year span of time from 5769 which is 2009 to 5776 or 2016, all inclusive. David Flynn's theory also suggested that based on the assumption and the year of Solomon's construction that took 7 years, the construction of the 3rd Temple also could be correlated to this pattern. This was deduced from the mathematical circumference of the Great Pyramid's geometry of 3022 ft. x 360 Biblical years. This 3rd Temple would only last for the final 7 years of human history before Jesus' return. From this point, this study suggests that in turn the subsequent 7 years of the pyramidion from 5776 could mirror Daniel's last prophetic week of years which is suggestive to what the 5776 culmination is about based on the Pyramid's capstone of 7 years; this is what is left of 'time'. Then what this means is that the year 5776 as Flynn highlighted the term the 'Year of Light' is when the Temple's Light Bearer will be manifest physically on Earth from that time forth. There is an undercurrent of esoteric and Luciferian dealing with this enterprise as such are expecting their Light Bearer and Temple to converge for the last few prophetic 'days' remaining that Humanity has to rule itself. It will be Lucifer's last attempt at thwarting YHVH's Temple and time schedule.

The Luciferian have also marked the pyramidion pattern that will be their mirrored 7 year countdown to 5776. It will take 7 years that began in 2009 as was the Temple of Solomon built in 7 years. The Great Seal has 1776 in Roman numerals at its base. In Freemasonry, their Great Pyramid blueprint starts with the year 1776 that mirrors 5776.

It was in 1776 AD that their evil plans incorporated the USA; it was the 'Year of Light' of its beginning as perhaps as 5776 will be its end. This same pyramid code of the End Times countdown is etched in the streets that comprise the Great Mall leading up to Capitol Hill in Washington, D.C. It is also encoded in the Washington Monument's very own pyramidion. The year 1776 is the accepted year of when the American version of the Bavarian/German Illuminati branched out to the Americas in the anticipation of the New World and American New Order was going to become the Luciferian phoenix home base of operations.

LAST TEMPLE
 The 'Last' Temple before the Millennial Reign of Christ that will have the 4th Ezekiel Temple will be where Lucifer will pronounce himself 'God' and will seek compulsory worship and loyalty on all levels during the Tribulation Period. He will be the 'head' or the 'Cap Stone' of the New World Order. Perhaps this will happen as the calculations suggest in the Jewish Year 5776 = 2015/2016.

FIRST TEMPLE
 The 1st Temple of the GOD of Israel was erected by King Solomon, son of King David. It took 7 Years to complete starting in 969BC by some estimations. The Temple was dedicated on 962BC. These dates are in dispute as there are other possible dates that have been postulated. There are several entities that have a direct interest and have a hand in seeing that the 3rd Temple is rebuilt. The Orthodox Jews of Israel, the Vatican, the Masons and Lucifer himself are among the primary groups.
