

STERLING AGRICULTURE

YEAST PLUS+

DESCRIPTION:

STERLING YEAST PLUS + IS DESIGNED FOR ALL ANIMALS LACTATING COWS, GOATS, SHEEP, and HORSES. THIS UNIQUE MIXTURE TAKES INTO CONSIDERATION THE DIGESTIVE TRACT OF RUMINANTS AND THE TYPES OF SUBSTRATE CONTAINED IN THE FEED. THIS PRODUCT CONTAINS A PROPRIETARY BLEND OF ACTIVE YEAST. ALLOW FOUR (4) WEEKS FOR EFFECTIVENESS.

WHY USE STERLING YEAST PLUS+ IN YOUR RATIONS?

1. Across several trials, cows supplemented with Sterling Yeast Plus+ show an increase of 2.7 lbs of 3.5% fat-corrected milk (FCM) and had a better feed efficiency than control cows.*****SEE NOTE BELOW*****
2. Sterling Yeast Plus+ is a naturally occurring, rumen specific active dry yeast probiotic that has optimize rumen function.
3. Sterling Yeast Plus+ is a dairy farm proven microbial technology that is fully viable, and metabolically active across wide pH. swings in the rumen.
4. All-natural source of quality digestible protein, amino acids, vitamins, and minerals.
5. Aids digestive tract function (pre-biotic), improving animal health.
6. Improves feed efficiency while increasing fiber digestion.
7. Aids development of healthy coat and skin OF ALL ANIMALS!

USE RECOMMENDATIONS:
USE 50-100 LBS OF YEAST PLUS+ PER 2,000 LBS GRAIN OR TMR RATION. OR 2-4 OZ. PER HEAD PER DAY.

NOTE* On the dairy farm, use the thumb rule of adding or subtracting one pound of milk for every one-tenth percentage point change above or below 3.5 percent fat test. For example, if a herd averages 70 pounds of milk with a 3.9 percent milk fat, the estimated pounds of 3.5% FCM would be 74 pounds.*****
