

State Tour

SUMMER 2019

KLC is working to transform the culture of Kansas so that communities and organizations throughout the state make better progress on their toughest challenges. We help individuals and organizations exercise leadership as an activity available to anyone at any time. And we're going on the road again this summer, looking for folks inspired by a new approach to leadership they can practice anywhere —at work, at home and in the community. Is that you?

GARNETT
