

About Ajijic, MX

Ajijic is one of the largest ex-pat communities in MX and is located on beautiful Lake Chapala, the largest natural lake in Mexico. It is a where automobiles, horses, burros and people exist side by side and is referred to, by the residents, as "paradise" which is a very apt description.

We are traveling in July which is truly one of the best month's weather wise, although National Geographic says Ajijic has the second best weather in the world.

As a past resident of Ajijic, Janice will be your guide and will show you the Mexico she loves. Cathy as an experienced teacher and international traveler will encourage you to reach your artistic potential in either classroom or plein air painting.

Tours of the adjacent area will be offered by Mexploration --

Art in Mexico with Cathy Campbell Herndon

COST, 6 nights & 5 days

This Mexico workshop will focus on assisting artists in creating their own expressive paintings during a stimulating, stress free, and enjoyable time in Ajijic.
