- Silver Lake Improvements

FIA/CFI

The mainstay for Lumberjack, the Forest Inventory & Analysis Program, completed the fourth year of the current five-year contract. All years have been completed ahead of schedule. The Inventory Supervisor has already begun work on the next bid cycle that begins in September of 2019.

SPONSORED AGENCIES To our fiscally-sponsored agencies, we provide accounting and support services so the organizations can focus on their important conservation work. Lumberjack currently sponsors two cooperative invasive species management groups, WHIP & TIP. In August of 2018, we welcomed the Wisconsin Young Forest Partnership.

INTO THE FUTURE

2019 and beyond brings an opportunity to focus on our mission. We will work toward developing ways to quantify how we promote a higher standard of living and improve the quality of life for our citizens. At the same time, we'll continue to develop the programs that allow for new revenue. As always, we will work with our local, county, state, federal and RC&D partners across boundaries, to affect conservation throughout the State of Wisconsin.
