Where smart got its start

We created smartBOX as a well-designed, movable and affordable solution to the need for quiet, flexible work spaces. Constructed using the highest quality sustainable and recycled materials and completely customizable to fit into any workplace, smartBOX manufactures fully equipped quiet pods and workspaces at surprisingly affordable prices.

All smartBOX workspaces are manufactured to the highest quality standards in our modern Arizona factory and are supported by our lifetime warranty.

Sustainability

From conception to production, our smart and sustainable design process allows us to manufacture every smartBOX product with the most environmentally friendly materials available.

Our products all have:

- Limited lifetime warranty
- 10 standard laminates
- 8 standard acoustic felt colors
- Custom finishes and sizes available
- UL approved electrical components
- Occupancy sensor automatically controls fans and LED lights
- Adjustable lights
- Wheels
- Made in the USA
