

FREE Workshop for Small Water Systems **Managing Smaller Water Systems**

November 1-2, 2021

8:00 AM – 12:30 PM, both days – ONLINE ONLY

AWWA/RCAP is offering a **FREE** two-day workshop on compliance with the Safe Drinking Water Act (SDWA), with focus on Systems Management.

The Workshop will cover the following topics:

Day One:

Board and Management Support

- Drinking water standards
- Record Keeping
- Monitoring and reporting requirements
- Operator Certification
- Public information/notice
- Capacity Development

Regulatory Overview – Distribution Systems

- Distribution system – a barrier for protecting public health
- Distribution regulations and requirements for drinking water

Day Two:

PFAS – Contaminant of Concern

- What are PFAS & PFOA, and their associated health concerns
- Understand current regulations
- Identify proper sampling procedures
- Understand how to address the problem
- Identify resources for assistance

AWIA and Small Systems Resilience

- AWIA requirements for systems serving more than 3,300 persons
- Review the RCAP/AWWA Small Systems Risk & Resilience Assessment (RRA) Worksheet
- Describe how to conduct an effective RRA in the field
- Identify gaps in your Emergency Response Plan
- Identify strengths and weaknesses in your system's risk mitigation practices

Asset Management – Overview

- What is Asset Management?
- Why should we invest in this for our water system?

Who Should Attend?

Board Members, Managers, Superintendents, and Operators of Small Drinking Water Systems

Continuing Education

Content for this workshop will be submitted for operator continuing education approval by the *Maryland Department of the Environment*, and *Delaware Office of Water, Advisory Council for the Licensing of Certified Public Water System Operators*.

7.5 hours of contact time is scheduled but you must register for both sessions.

Register On-Line!
