

GRAND CELESTIAL CROSS

The purpose of this chart is to illustrate what a Grand Cross alignment looks like in the Heavens. A Grand Cross occurs only within the confines of our Solar System. The coordinates will be plotting the Partial Solar Eclipse of June 26, 2010 in the constellation Gemini that also is aligned with the Dog Star Sirius. There are those that postulate that some very interesting correlations will happen on Earth because of a Grand Cross configuration; it could affect nations, economies, war, personas etc. Nonetheless, such configurations seem to work like a time clock marking time of scheduled celestial events. Nonetheless, a Grand Cross is said to be a turning point in human history. Although somewhat rare, Grand Celestial Cross do occur from time to time and are not to be confused with the Cardinal Cross. The Celestial Cross is at 90° to the planets but not necessarily within the astrological Zodiac Cardinal Cross. The Cardinal Cross is also different from the Solar Cross that correlates to the Cardinal Signs of Lion, Eagle, Bull, and Man. Some speculate that the Cross shape is what ancient cultures worshiped as the Solar Cross. Many Biblical scholars assert that the first Christian symbols were a fish, an anchor but not a 'cross' until later as is found in every ancient pagan religion denoting their Sun God.

PLANETARY GRAND CROSS ALIGNMENT

CROSS OF THE ZODIAC

Since the Grand Cross may not 'exactly' encompass the cardinal point, some ascribe the alignment to an imperfect 'crooked Cross' or Solar Swastika, which the Nazi's for example was the 'Black Sun'. The example of the Grand Cross of 2010 is unique in two ways: 1st, the start of the Grand Cross occurred on a Moon phase and then reached its zenith by the partial eclipsing by the Sun when the partial eclipse will align itself with the great star Sirius. This star is in ancient accounts one of the 'Stairways to Heaven.' Interestingly, in a Grand Cross, there is one planet in each astrological element of fire, earth, air and water. These correlated to Leo, Scorpio, Taurus and Aquarius.

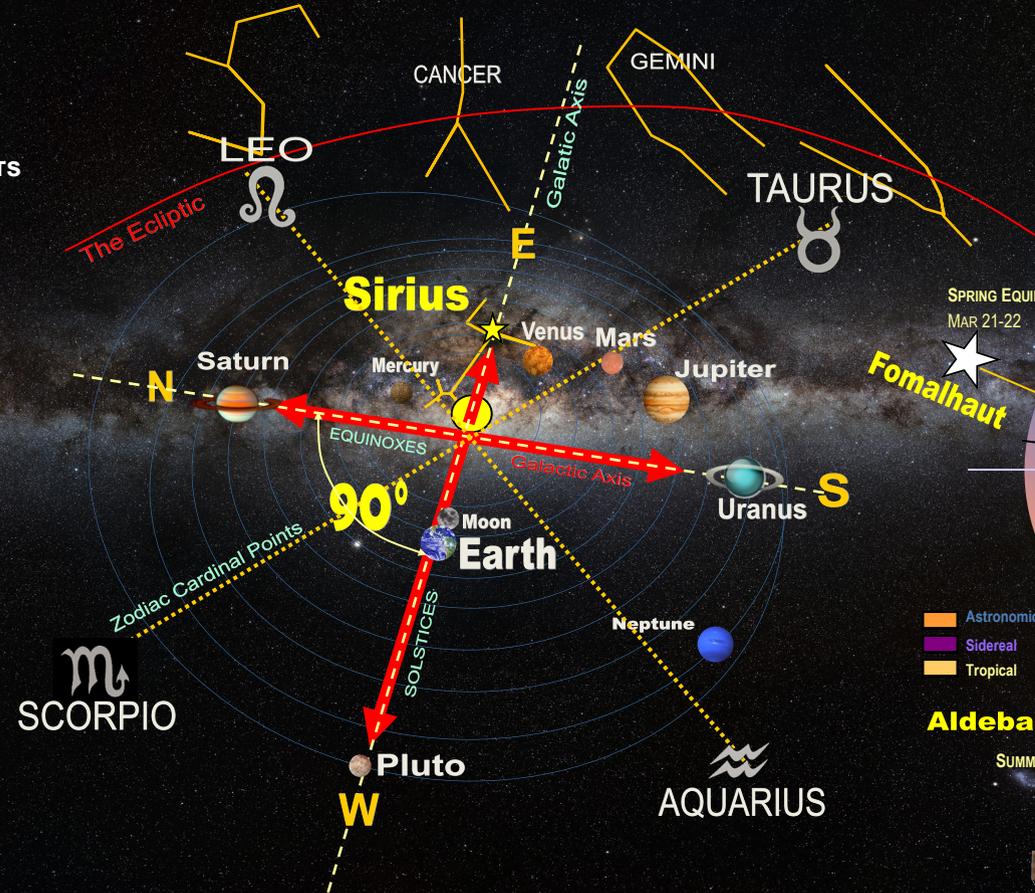

TYPES OF COSMIC CROSSES

- 1) Solar Cross: related to Zodiac
- 2) Cardinal Cross: related to Solstices/Equinoxes
- 3) Celestial Cross: related to Planets

When Grand Crosses are configured, they are seen as a source of extreme tension and stress in the world as in a pulling in all 4 directions at the same time. Can such celestial occurrences be alluding to a coming time of great stress as in birth pangs?...A delivery in which something has to break through or give way. Perhaps metaphorically that of the AntiChrist and the accompanying New World Order.

Partial Lunar Eclipse JUNE 26, 2010

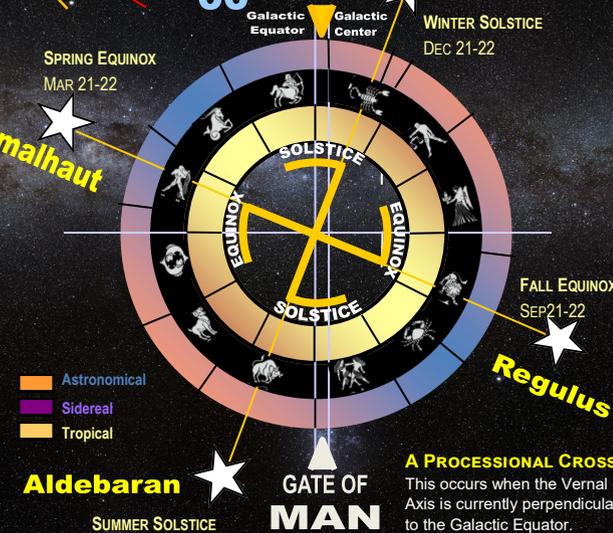

Sirius

It is the brightest Star in the night sky. The name "Sirius" is derived from Ancient Greek *Σείριος Seirios* "glowing" or "scorcher". It is associated with 'ISIS' and the Cult of Diana, or Lucifer, the 'light bearer' and one of the ancient members of the occultic Trinity. The symbol is a Star Figure coming from the Pyramid Portal. '11' Two vertical lines meeting at its apex. It is also considered to be a portal or gateway or opening. Will the false and unholy Trinity of Lucifer and his AntiChrist and False Prophet come forth through some 'gateway' to Earth soon to scorch the Earth along with his Fallen Ones?

A Grand Cross does have certain unique factors. For example, certain dates and numbers become significant associations in the esoteric. Many believe that this particular Grand Cross is signaling the opening of the 2nd of 3 spiritual Stargates that have to happen in order to usher in the Luciferian New Age or as the Globalists would rather refer to as the New World Order due to the lunar eclipse alignment with Sirius.

GATE OF GOD 33° Antares

CELESTIAL STAR-GATES

According to the occult, there are 3 'Star-Gates' that need to be opened to usher in the 'New World Order' or Age of Peace, Love and Harmony. Interestingly, these gates or heavenly portals are to be for the ushering of their World Ruler. He is depicted as being a 'Super-Man that will unite the world after some sort of global collapse, be it economic, political, social, religious or a combination of them all. The 'Star-Gates' are from which 'spiritual' entities/guides need to break forth into the world scene to aid in this 'Great Work'. The 'Star-gates coincide with the Great Cycle of 26,000 years.

A PROCESSIONAL CROSS
This occurs when the Vernal Axis is currently perpendicular to the Galactic Equator.

GRAND CELESTIAL CROSS

The 'Cross in the Heavens' often forms a Hebraic Tau (T), signifying the 22nd and last letter of the Hebrew alphabet. In the occult, the Tau is the emblem of the Initiate who has triumphed over 'death'. Interestingly in the Kabalistic Great Work, the Tau denotes an 'End', as in a completion of a thing; the "Old Order" for the 'New Order' to start perhaps? It is also associated with the Ankh or key that the 'King' (the AntiChrist to
