

About Moneywatch

MONEYWATCH Ltd

- has been providing financial advisory services and personal finance seminars to consumers, professionals and businesses since 1981.
- does not market insurance or securities, is not remunerated by creditors of clients or professionals to whom clients may be referred, and never handles clients' money.
- has an unblemished record with regulatory and consumer reporting agencies.
- does not tell people what to do with their money or their lives. Moneywatch provides the information and technology people need to make their own good decisions based on the realities of life.
- has fees for service that are cost appropriate for the financially secure, the financially stressed and everyone in between.
