

MEDICATIONS AND SCHOOL

New York State Department of Education regulations state that in order for your child to receive medication at any time during the school year, you must complete certain criteria.

1. Parent/Guardian must present a written consent form
2. Medications must be in the original package/prescription bottle, properly labeled by a registered pharmacist as prescribed by law
3. Present a completed medication form from the prescribing physician

Please be aware that NO medications can be given out by the district's nurses without the above criteria completed. ***This is not to inconvenience you but a state law.***

**Form available on Website
