66<sup>th</sup> ANNUAL WORLD CONGRESS | OCTOBER 9-11, 2025

Lowes Vanderbilt Hotel | Nashville, Tennessee

## Sponsorship, Marketing & Exhibit Opportunities Perfusionists and Advance Practice Providers

ICA 2025 – 66<sup>th</sup> ANNUAL WORLD CONGRESS

OCTOBER 9-11, 2025

NASHVILLE, TENNESSEE

### Help Advance Patient Care and Ensure Excellence in Cardiovascular Medicine and Surgery by Becoming a Distinguished Partner

The International College of Angiology is approaching its 66<sup>th</sup> Annual World Congress this year, jointly sponsored by Midwest Cardiovascular Research Foundation, and we are extending our invitation for you to participate as an industry supporter at ICA 2025. For exhibitors to maximize their exposure to our multi-disciplinary scope of physicians and surgeons, cardiac perfusionists, advance practice providers and allied healthcare personnel, we are offering an excellent opportunity for sponsorship. As health care delivery to patients with complex vascular disease improves, a multidisciplinary approach is often needed to care for these patients. This program will address these approaches to make treatment plans more effective. We are expecting our attendance to be 250 on-site participants.

**New for 2025! Our team invites you to showcase your products and demonstrate its value to the cardiac perfusionist, and advance practice providers.**

We are planning to provide the latest innovations in cardiovascular medicine and surgery to colleagues from around the world. The congress is designed to offer new ideas, convictions, strategies and tactics that directly affect physicians, surgeons, cardiac perfusionists, advance practice providers and allied health care professionals and basic and clinical investigators. The global goal of this congress is to communicate a commitment by providing needs-based education that fosters change in target audience knowledge, competence and performance to ultimately improve patient outcomes. This will be accomplished through invited internationally recognized keynote guest speakers, symposia, oral and poster presentations and exhibits, quality attendees, and superior content, highlighting the most challenging and controversial topics and procedures performed in interventional medicine. This forum will provide an opportunity for networking, sharing knowledge, partnering research and clinical investigation.

Your contribution to the 66<sup>th</sup> Annual World Congress will help our Society continue its long tradition of scientific excellence and provide you with an opportunity to be showcased as a supporter to our membership and attendees. Our Annual World Congress attracts renowned cardiovascular physicians and surgeons presenting their cutting-edge research and technology.

The various levels for sponsorship, marketing and exhibit opportunities are described in this prospectus. Premium locations in the exhibitor hall go fast, so please return your Exhibitor Application as soon as possible to ensure the best location.

The authenticity and creativity that sets Nashville apart also makes a Music City meeting a one-of-a-kind event. With a work hard, play hard attitude, Nashville has perfected the art of mixing business with pleasure. The excitement that naturally surrounds a meeting in Nashville drives attendance – often to record-breaking heights.

We thank you for your support for ICA 2025 and we consider every corporation a valuable partner. We look forward to personally greeting you in October at our Congress.

Sincerely,  
Randall W. Franz, MD, RVT, RVPI, FACS, FICA  
Chairman, ICA Board of Directors  
Program Chairman, ICA 2025

## Congress Description/Objectives

The overall mission of the 66<sup>th</sup> Annual World Congress of the International College of Angiology is to bring together basic and clinical scientists to share current knowledge and techniques in angiology to update the pathophysiology of disease, clinical diagnostic methods, and treatment for improved healthcare delivery and future research.

The objective is to offer a serious academic forum to those physicians, scientists, researchers, advance practice providers and allied healthcare personnel interested in research, education and clinical investigation in the field of cardiovascular medicine and surgery.

The intention is to provide an in-depth review of the spectrum of topics related to the management and treatment of patients with cardiovascular and vascular disease. Special emphasis will be placed upon evolving trends, therapies, and minimally invasive treatment of cardiovascular disease. The congress will feature internationally renowned faculty, and recognized leaders will discuss state-of-the-art techniques in the management, diagnosis and treatment of vascular disease. The focus will be on surgical, percutaneous and medical management from peripheral vascular disease to coronary and cerebrovascular disease and abdominal aortic aneurysms offering a comprehensive review of what is new in management, techniques, approaches and prevention.

This Congress is designed to offer a serious academic forum to those physicians, scientists, researchers, advance practice providers and allied healthcare personnel interested in research, education, and clinical investigation in the field of cardiovascular diseases. The congress is intended to provide an in-depth review of the spectrum of topics related to the management and new treatment modalities, including diagnosis, assessment, intervention, risk factors management and surgery.

At the conclusion of this activity, the attendees should be more confident in their ability to:

1. Examine concepts related to cardiovascular diseases.
2. Discuss strategies to improve patient outcomes in managing cardiovascular diseases.
3. Analyze treatment strategies that involve complex patient situations with multiple contributing risk factors.

## Learning Objectives

After completion of this activity, participants will be able to:

1. Describe and Apply the Value of an Integrated Approach to the Diagnosis and Treatment of Cardiac and Vascular Disease
2. Assess and Differentiate Between Competing Technologies for Vascular Intervention
3. Choose When and How to Appropriately Apply Various Interventional and Non-Interventional Procedures in the Treatment of Vascular Disease
4. Describe New Developments and Techniques in the Diagnosis, Medical Management, and Treatment of Cardiac, Peripheral Vascular and Cerebrovascular Disorders to Make Improved Patient Care Decisions Based on Outcome and Cost
5. Enhance Knowledge in the Practice of Treating Vascular Disease
6. Identify and Explore New Research Problems for Future Collaboration

All presentations have a purpose while providing a balanced view of diagnostic and therapeutic options followed by constructive debate. These objectives are achieved through nationally and internationally recognized invited guest lectures, special symposia, oral and poster presentations and exhibits, highlighting the most challenging and controversial topics and procedures performed in interventional medicine. Submitted abstracts and invited guest lecturers serve as a major part of the program.

## Needs Assessment

There is a lack of awareness about new management and treatment strategies.

- There is underutilization of novel devices to optimize patient outcomes.
- There is insufficient prophylactic use of pharmacological agents to optimize care.
- There is a lack of evidence-based practice integrating research with clinical experience to provide optimal care

As health care delivery to patients with complex vascular disease improves, a multidisciplinary approach is often needed to care for these patients. We are addressing the gaps needed to make these treatment plans more effective.

As outlined by the planners of the Heart and Lung RSS, healthcare team members need to improve their competencies pertaining to mechanisms and treatment of arrhythmias, appropriate use of cardiovascular invasive and non-invasive diagnostic modalities, new vs. conventional modalities for treatment of valvular heart disease, congestive heart failure diagnosis and management, current ACC/AHA Guidelines and applying appropriate criteria for the treatment of cardiovascular disease.

## Implementation

Learners will be queried as to their anecdotal impressions of changes to their patients' outcomes as a result of changes they have made in practice performance. The following methods will be utilized:

**Didactic lectures and Q and A** (lectures provided for the instruction of learners) **Case study/review** (provides an account of an actual problem or situation)

**Group discussion** (provides an opportunity for interprofessional learners to think together constructively for purposes of learning, problem solving, decision-making and/or improving human relations)

**Formal debate** (allows controversial topics to be explored from pro and con points of view, engaging audience response to debaters)

Ancillary tools used to sustain long-term changes consist of follow-up cases and patient reminders.

## Core Competencies

The following core competencies that will be used in this activity are:

ACGME/ABMS, Patient Care and Procedural Skills, Medical Knowledge, Practice-based Learning and Improvement, Interpersonal and Communication Skills, Professionalism, Systems-based Practice

## Educational Partner and Accredited Provider

Midwest Cardiovascular Research Foundation is the educational partner and accredited provider for this program.

# The International College of Angiology

**66<sup>th</sup> ANNUAL WORLD CONGRESS | OCTOBER 9-11, 2025**  
**Lowes Vanderbilt Hotel | Nashville, Tennessee**

## **SPONSORSHIP/SUPPORT OPPORTUNITIES** **PERFUSIONISTS & ADVANCE PRACTICE PROVIDERS**

To meet the needs of this multidisciplinary specialty society, the Program Committee for the ICA's 66<sup>th</sup> Annual World Congress – ICA 2025 has developed scientific programming to bring together basic and clinical scientists to share current knowledge and techniques in angiology to update the pathophysiology of disease, clinical diagnostic methods, and treatment for improved healthcare delivery and future research.

The ICA Annual World Congress relies upon the generous support from industry in the form of sponsorships and unrestricted educational grants to provide an in-depth review of the spectrum of topics related to the management and new modalities, including diagnosis, assessment, intervention and risk factors and surgery to patients with cardiovascular and vascular disease. Special emphasis will be placed upon evolving trends, therapies, and minimally invasive treatment of cardiovascular disease. The congress will feature internationally renowned faculty, and recognized leaders will discuss state-of-the-art techniques in the management, diagnosis and treatment of vascular disease. The focus will be on surgical, percutaneous and medical management from peripheral vascular disease to coronary and cerebrovascular disease and abdominal aortic aneurysms offering a comprehensive review of what is new in management, techniques, approaches and prevention.

This program will provide a forum for the synthesis of *State-of-the-Art* information that encompasses the pathophysiology, clinical diagnosis, and treatment of cardiovascular diseases as they are encountered by primary care physicians, vascular, general, thoracic, cardiothoracic, and cardiovascular surgeons, neurosurgeons, cardiologists, internists, and cardiology and vascular interventional radiologists.

The 66<sup>th</sup> Annual World Congress-ICA 2025 is designed to meet the specific educational needs of medical professionals involved with the management and treatment of cardiovascular diseases as they are encountered by primary care physicians, vascular, general, thoracic, and cardiovascular surgeons, cardiologists, interventional radiologists, neuroradiologists, fellows and residents of the above specialties, cardiac perfusionists, nurse practitioners, vascular technologists, vascular biologists, their staff, nurses, and advance practice providers.

**Thank you for your support!**

### **PLATINUM LEVEL \$10,000**

- Four (4) Corporate/Exhibit Registrations
- 10' x 10' Table Top Exhibit or Your Own Exhibit Booth
- Two (2) Tickets to the ICA's Welcome Reception
- Two (2) Tickets to the ICA's daily Breakfast Sessions (Thursday – Saturday)
- Two (2) Congress Bag inserts
- Recognition on slides projected during introductory remarks and session breaks.
- One (1) page advertisement in the final printed program

### **GOLD LEVEL \$8,500**

- Three (3) Corporate/Exhibit Registrations
- 10' x 10' Table Top Exhibit or Your Own Exhibit Booth
- Two (2) Tickets to the ICA's Welcome Reception
- Two (2) Tickets to the ICA's daily Breakfast Sessions (Thursday – Saturday)
- One (1) Congress Bag insert
- Recognition on slides projected during introductory remarks and sessions breaks.
- One-Half (1/2) page advertisement in the final printed program

### **SILVER LEVEL \$6,500**

- Two (2) Corporate/Exhibit Registrations
- 10' x 10' Table Top Exhibit
- One (1) Ticket to the ICA's Welcome Reception
- One (1) Ticket to the ICA's daily Breakfast Sessions (Thursday – Saturday)
- One (1) Congress Bag Insert
- Recognition on slides projected during introductory remarks and sessions breaks.
- One-Quarter (1/4) page advertisement in final printed program

### **BRONZE LEVEL \$5,000**

- One (1) Corporate/Exhibit Registration
- One (1) Ticket for the ICA's Welcome Reception
- One (1) Ticket for the ICA's daily Breakfast Sessions (Thursday – Saturday)
- Recognition on slides projected during introductory remarks and sessions breaks.

### **Additional Limited Add-On Event Sponsorships**

- Intern Sponsorship \$2000 per intern
- Sponsor a Happy Hour – Thursday or Friday - \$10,000 per day
- Sponsor a Breakfast – Thursday, Friday or Saturday -\$7,500 per day
