

May 7, 2014

Dear Glenna,

It was such a pleasure meeting you. It is rare to come across such a beautiful soul such as yours. Your books speak to the heart and are just perfect for children. They teach wisdom and love in such a beautiful way. The illustrations are life-like and vibrant. Only someone who has experienced life with a heart wide-open could have written these books!

I wanted to thank you for your multiple donations of the book "Memories of the Heart" to our organization, Hope for HIE. Often, when a family loses a child, words are not enough. The surviving siblings are confused and heartbroken. This book speaks directly to them. Two of your books are on their way to families who have just experienced loss. We will keep the rest to send out to other families that will inevitably lose their child to hypoxic ischemic encephalopathy. I would like to think the message of your book will bring some level of comfort.

I look forward to reading more of your books with my own children and hopefully meeting you again. Thank you for using your talents for good!

Shaina Ziolkowski
