Basic Instructions for your Grandstream GXP2130 Phone

Figure 5: GXP2130 Keyboard

	Contacts. Press to view and edit contact information.
	Hold. Press to put call on hold or resume the call.
	Mute. Press to mute or unmute the call.
	Headset. Press to switch to headset mode.
	Message. Press to view voicemail messages.
	Transfer. Press to transfer call.
	Conference. Press to conference call.
	Speaker.
	Send/Redial.
	Volume.
	Up Navigation key. In idle screen, press to see the IP.

Conference calls

1. Make the first call as usual.
2. Press the **Conference** key. 
3. Dial the **second number**.
4. Wait for the second party to answer.
5. To bring all three parties together, hit the **Conf** key again.
6. If you make a mistake while dialing or the second party is not there, press the **Cancel** soft key and press the blinking Line key to return to the previous caller.

You can only add up to 4 parties including yourself to the Conference Call. If you need to add more, you can have a conference bridge set up.

Using the speakerphone

1. Dial the number and then press the Speaker button.
2. To hang up, press the Speaker button.
3. You may also pick up the handset to take the phone out of speakerphone mode.

Volume controls

The volume keys change the volume of the ringer, the handset, and the speakerphone. To change the volume of the ringer, press up or down when the phone is not off-hook.

Voicemail System

Recording greetings

1. Press the **Message** key. 
2. Enter your password. By default it is **1212**.
3. Press **0** for Mailbox Options.
4. You have the option of recording up to three greetings. At the very least, record an Unavailable Message. Press **1** to record the Unavailable Message.
5. Record the message after the tone and press pound.
6. To keep the message, press **1** to accept the message. If not satisfied, press **3** to re-record and repeat steps 5 and 6.

Recording name

1. Press the **Message** key. 
2. Enter your **password**, followed by the **#** key.
3. Press **0** for Mailbox Options.
4. Press **3** to record your name.
5. Record the name after the tone and press pound.
6. To keep the message, press **1** to accept the message. If not satisfied, press **3** to re-record and repeat steps 5 and 6.

Setting your mailbox password

1. Press the **Message** key. 
2. Enter your **password**, followed by the **#** key.
3. Press **0** for Mailbox Options.
4. Press **5** to change your password.
5. Please enter your new **password**, followed by the **pound** key.
6. Re-enter your **password** followed by the **pound** key for confirmation.
7. If everything is correct, the system will tell you your password has been changed.

Listening To Messages

New messages

1. Press the **Message** key. 
2. Enter your **password**, followed by the **#** key.
3. Press **1** to listen to new messages.
4. Follow the prompts to save, delete, etc.

Old messages

1. Press the **Message** key. 
2. Enter your **password**, followed by the **#** key.
3. Press **2** to change folders.
4. Press **1** for old messages (or listen to the prompts to select another folder).
5. Follow the prompts.

To forward a voicemail to another extension:

1. Press the envelope button
2. Enter your password
3. Press 1 to listen to the message
4. Press 8 to forward the message
5. Press 1 to enter an extension # to forward to
6. Enter extension #
7. Press 2 to complete process

To retrieve messages from another extension or for another extension (on-site)

1. Dial *98 for the Voicemail Directory.
2. Enter your mailbox number or the number of the mailbox you are trying to access.
3. Enter your password.

To retrieve messages remotely (Off-Site)

If your system is answered by an auto-attendant.

1. Dial the **main number**.
2. Press preprogrammed extension number for the Voicemail Directory.
3. You will be prompted to enter your mailbox number, then your password.
4. Follow the prompts to listen to messages.

If you call your own direct-dial(private)number:

1. Dial your direct-dial (private number)

2. Wait for the voicemail to pick up with your personal greeting.
3. Press **2** for the voicemail gateway.
4. Follow the prompts to listen to your messages.

To “Page” an extension

For intercom paging, press ***80** and then enter the **extension number** or press the MPK of the party or group you want to page. This feature will call an extension or group of extensions, allowing you to speak immediately over the speaker in the telephone without ringing the phone itself.

Placing a call on hold (we tend to discourage this feature as it is not as practical as placing a call on Call Park)

1. While on the call, press the **Hold**  key. This will place the call on hold on one of the **Line** keys.
2. If you need to place another call after you put the call on hold, you will have to hit the **Line 2** key to get another line. Dial as needed and press the **Dial** soft key to send the digits. .

Picking up a call on hold

1. Press the **Line** button that is blinking where the call is on hold.
2. Or Press the **Pickup** soft key to pick up the last call you placed on hold

Parking calls

It is best to use the Call Park when placing a call on hold for someone else.

1. While on the call, press an available **CallPark** MPK.
2. The status of the Call Parks are displayed on every phone.
3. To retrieve the parked call, press the red Call Park button

Transfer a Call

1. During an active call, press TRANSFER and dial the number to transfer to. You can also transfer to an extension by dialing the extension number or pressing a programmed extension key.
2. Press *blind transfer* softkey to complete transfer of active call.

To transfer a call to someone’s voicemail:

During an active call, press TRANSFER and dial the extension + *, the call will go directly to the voicemail box for the extension without ringing the phone first.

Bluetooth

To connect to a Bluetooth device, turn on GXP2160's Bluetooth radio first. The first time when using a new Bluetooth device with the GXP2160, "pair" the device with the phone so that both devices know how to connect securely to each other. After that, users could simply connect to a paired device. Turn off Bluetooth if it is not used. Bluetooth related settings are under GXP2160's LCD Menu > System > Bluetooth.
