

WOMEN FLY

As a percentage of the pilot population, females make up less than 10%; but Julie Somers, of Montclair, is doing something about it! Pictured is Julie after passing her checkride to become a private pilot on August 26, 2014. Julie demonstrated a determination and discipline that carried her through the entire process of learning to fly; she had no prior exposure to aviation, but an always-positive attitude and a love for learning the art and science of flight! Julie received her training with Geoff Orlandi, owner of Orlandi Flight Center, located at Blairstown Airport. Flying is an all year around activity, so begin your own journey to self fulfillment today, as Julie has done! Call Geoff at 201-874-5458, email him at go@orlandiflightcenter.com, visit our website at orlandiflightcenter.com and stop by the airport.
