

Young Women

Young women
Sweet dream ladies
They'll break your heart with the games they play
Young women
Sweet dream ladies
Wouldn't have it any other way

When I was down in despair
I was lonely
She came along with her swing and her sway
Blew the clouds away

Young women
Sweet dream ladies
They'll break your heart with the games they play
Young women
Sweet dream ladies
Wouldn't have it any other way

Twinkling eyes and an innocent's smile
Sold me
On her youthful daydreams
And summer night schemes
Or that's the way it seemed
