

Our Mission

The Playhard Project is a 501(c) 3 non-profit organization; it is designed to help provide scholarships to young athletes participating in both mainstream sports as well as school sport programs.

These days the ability to play sports requires substantial funds for participation. Many families do not have the necessary means to fund participation for their children. The Playhard Project was designed to bridge that gap, and help families in need, providing equal opportunity to children who otherwise would not be able to play sports.

The benefits of participation in sports for children and young adults is substantial, some include physical, physiological, and social development. Physical activity in sports can positively affect aspects of personal development, such as self-esteem, goal-setting, and leadership skills. Youth sports helps to engage children and keep them out of trouble, staying motivated, focused, and inspired.

Whether you're a family in search of assistance or a helping hand looking for a good cause, we ask you to take a few minutes to learn more about our cause.
