

The World's most powerful Natural Broad Spectrum Skin Friendly Antiseptic

**100% Pure Australian Grown Tea Tree Oil
The World's Finest Quality**

Product Description: Australian *Melaleuca alternifolia* Tea Tree Oil
Distilled Pure 100% Oil & Hydrosol

- **Australian 100% Pure Tea Tree Oil** from sustainable Plantation trees harvested from the N/E Coastal Regions of NSW, Australia. After the leaf has been harvested, it is carefully steam distilled, filtered and stored.
- **Melaleuca alternifolia Tea Tree Oil** has been used as a antiseptic and healing remedy for the Indigenous people along the East Coast of Australia for thousands of years. Today the trees are no longer wild harvested, but after nearly 50 years of careful selection the Melaleuca alternifolia species has evolved to become a worldwide phenomenon in natural healing.
- **A Natural "First Kit In A Bottle"**
Years of research and plant genetic improvements now produce premium sustainable crops annually. GoWild Australia supply the very best pharmaceutical grade.
- **The World's Most Powerful Natural Broad Spectrum Antiseptic**
- **Medicinal Properties**
Tea Tree Oil is a recognized broad spectrum antiseptic essential oil. In fact the only one which is skin friendly and does not harm healthy tissue with normal use.
- **Applications**
Recognized by TGA, FDA and other world regulatory bodies for use as an active ingredient in Body care, Skin care, Hair care and Oral care products.
- **Tea Tree Oil (Australian Melaleuca alternifolia)** has been found to contain over 100 various nutritive compounds and trace elements which synergistically work to produce the perfect oil – any adulteration to these elements will degrade the effectiveness of the oil. *Aussie - FACT NOT FICTION!*
